Dear Sir,

I am desired to say that, in the Sniese Admn. Report for 1909-10 received from you, I have noticed the omission of the last sentences of paras 3 and 52, the second half of the last sentence in para 111 and the whole of para 112 with the exception of the last sentence thereof. The last but one sentence in para 22 is slightly altered so as to render more reasonable.

I am to request that you will be good enough to make the above corrections in your office copy, the final proofs being corrected in accordance therewith.

Yours sincerely,

over.

From

H. H. Sparkes, Esquire,
Excise Commissioner
in Mysore.

To

C. S. Balasundram Iyer, Esq., B.A.,
Offg: Secretary to the Government of
His Highness the Maharaja of Mysore,
General and Revenue Departments.

Chapter I. Introductory.

Sir,

I have the honor to submit my report on the Administration of the Excise Department of the State for the year 1909-10. The usual statistical statements are appended.

Personnel of the Department.

2. I continued to hold charge of the Department during the year except for the period from 24th March to May 1910, when I was on privilege leave. Mr. M. Narain Rao, Deputy Commissioner, Shimoga, acted for me then.

3. Mr. B. Shamanna continued as Office -

Assistant

Assistant throughout the year. Mr. A.K.Syed Taj Peeran was transferred to the Revenue Depart-ment and his place as District Excise Officer, Kolar, was taken up by Mr. Zahiruddin Meccai , from the Police Department on the forenoon of the 2nd June 1910, only. In January 1910 Mr. Mohamed Abdulla Sheriff was transferred from Kadur to Chitaldrug, while Mr. Hassan Ali, who succeeded him there having gone away on leave shortly after, Mr. C. V. Krishnaswamy Rao was appointed District Excise Officer, and was post-ed to Kadur in April 1910. During the inter-val, Messrs M. Krishnaswamy Iyengar and S. Chakrapaniengar, Treasury Assistant Commissioner held charge of the Kadur District Excise Office for broken periods of a fortnight and a month. Mr. M. Ranga Rao who continued to be in charge of Hassan District Excise Office till May 1910, was sent to Mysore, on special duty in connec-tion with the marriage of His Highness the Yuvaraj and in his place Mr. C. R. Narainswamy Mudaliar was appointed District Excise Officer. There were no other changes in the personnel or

charge

charge of the District Excise Officers except that Messrs B. Bheema Rao and C. Krishnama Naidu were on short leave during the year. The Deputy Commissioner, of the Kadur District, bitterly complains of the frequent changes in his District and rightly too as there can be no doubt that frequent changes do an immense amount of harm to the Department.

"bitterly" maybe left out. Or the whole passage omitted. The whole passage maybe omitted

Excise Ranges.

4. As an experimental measure, Mysore City was constituted into a Range by the abolition of Yedatore as a separate charge which was added on to the Mysore Taluk. Such a step seemed necessary to prevent and detect cases of smug-gling of Ganja from the surrounding British Territories. The effect of a full time officer in charge of the City alone, is not without its consequences. In former times a Preventive Inspector, with a staff of one Sub-Inspector and two peons was stationed in the City for preven-tive work only. Since the abolition of this staff, the City had only a partial attention and in consequence there were great opportunities for

present Reading
Immunication

for the smuggling of Ganja, especially. The present arrangement has checked this to a cer--tain extent. Besides this, there were no changes in the Excise Ranges, forty three of -- which were in charge of Inspectors, while the remaining six were in charge of Probationary Ins--pectors.

Important changes.

5. The principal changes in the Excise Administration during the year under report were as follows:-

1. Country Spirits.

(a) One of the two jaggory Arrack check shops in the Kolar Gold Fields was allowed to sell bottled molasses arrack only.

(b) The strength of arrack was reduced -- from 20 U.P. to 25 U.P. to come into effect from 1st July 1910.

(c) The Arrack Rules were amended in con--sequence.

(d) The Methylated Spirit Rules were -- amended.

2. Foreign Liquors.

(e) Rule X of the Foreign Liquor Rules was amended so as to include brands weaker than 15 U.P. strength in the ordinary license with the sanction of Government.

(f)

(f) Sanction was obtained to sell by - - public auction the English draught Beer Tavern in the Kolar Gold Fields, which was hitherto - - being licensed out on a fixed fee.

3. Beer.

(g) The Country Beer Taverns in the Bowring-pet Taluk were permitted to be sold by public auction with an upset price of Rs.250/- per mensem instead of on the hogs-head-fee system, from 1st July 1910.

4. Toddy.

(h) Arrangements were made to dispose of the toddy shops in certain taluks on a two years' lease to compare the results simultaneously with the Taluks sold on a three year lease during the last year.

(i) Certain facilities were created to the renters in Bagani areas for the speedy marking of trees.

(j) A new tree-tax register was prescribed to show at a glance the Demand, Collection and Balance of tree-tax.

5. Intoxicating drugs.

(k) Experimental farms (ganja) to cultivate Ganja by Amani were opened at Gollahalli and - - Dodkurgod.

(l) Retail price of Ganja was ordered to be raised from Rs.1/- to Rs.1-4-0 per seer of 80 tolas from 1st July 1910.

(m) Arrangements were made and Ganja was imported

imported duty free from the Kanyambadi Store--House of the Madras Presidency and the Khandwa Store-House of the Central Provinces.

Eucaine, Beta-Eucaine, Beta-Eucaine--lactate and Holocaine.

(n) The possession, sale and transport of the above drugs were brought under the purview of the Excise Regulation.

(o) The sale except under a license of -- Medicated articles was prohibited under Section 71 of the Excise Regulation.

6. Opium.

(p) The minimum quantity that could be allowed to be purchased at a time was fixed at 20 tolas instead of 24 tolas.

7. General.

(q) Certain powers of Government under -- Section 4 (g) of the Excise Regulation were dele--gated to the Excise Commissioner.

(r) Powers of Government to sanction re--missions and refunds were delegated within -- certain limits to the Excise Commissioner.

(s) For the speedy preparation of refund bills of Inamdars entitled to the Toddy Revenue of their villages in the Mysore District, a temporary clerical establishment was sanctioned.

(t) To look after the Amani Ganja cultiva--tion, the establishment of a Ganja Overseer and 4 peons was sanctioned.

(u) Security deposits were reduced to two months' rental irrespective of the period of the lease.

(v) The Notification for the sale of Excis and Opium privileges for 1910-11 was modified in regard to the grant of licenses under para 4 of condition XIX in the matter of Arrack and Toddy shops being prohibited to be opened in Jatras and that where permitted such shops were ordered to be located at a distance of not less than a mile from the Jatra site.

(w) An amalgamated Day Book for all Excise Collections and a license register were pres - -cribed for use in Taluk Offices.

(x) The temporary Patrol Staff sanctioned for the Kolar Gold Fields was continued.

(y) The levy of a duty of R^{s}.4-12-0 on a gallon of 25 U.P. from 1st July 1910, and propor -tionately for higher or lower strengths was legalized.

(z) The Manufacturers of Arrack were - - directed to get bottles of uniform size from England and consequently they were given en- -hanced bottling charges.

(z) Certain powers of confiscation of the Excise Commissioner were delegated to the Deputy Commissioners and District Excise Officers.

Chapter II. Country Spirits.

Distillery Buildings.

6. The following important improvements were made to the Distillery Buildings during the year : -

(a) A verandah was added on to the Spirit Warehouse at a cost of Rs.1688-11-10 to give shelter to the casks from sun and rain.

(b) Glass tiles were fixed to the roof of the Warehouse to allow greater light.

(c) A new wash-room was built to accommo-date 12 Wash-backs of capacity of 17500 gallons

(d) The northern portion of the compound wall, having come down on account of the heavy rains, was rebuilt more substantially.

(e) To prevent fraud from the Still-plat-form, a small door which could be locked and sealed was fixed on the topmost step leading thereto.

Besides the annual repairs, such as -- repairing the Cooper's shed and the Guard-Room and replacing broken tiles, the following works are being taken up : -

(1) Raising the floor of the Receiver Room

on

on to the ground level and the consequent height-
-ening of its roof.

(2) Altering the floor of the Old Wash --
Room.

(3) Repairing the present cultivation ---
Room.

7. Government sanction having been received to connect the telephonic communication with the Distillery, with the Central Exchange, arrange-
-ments are being made to carry out the same, to avoid the continual inconvenience, by the line getting out of order frequently.

Distillery Water-Supply.

8. During the year, pipe communication from the Hessaraghatta tank was extended to the Dis-
-tillery, and from 1st July 1910, the reduction of the spirit was arranged to be made with this water in lieu of distilled water.

Coffey Still.

9. A second Coffey Still was installed to minimize night distillation and to maintain - -
sufficient stock.

Visitors.

10. His Highness the Maharaja of Mysore - -
accompanied by Mr. R.H. Campbell, I.C.S., Private
Secretary /

Secretary, visited the Distillery in the month of March 1910. The Dewan with Mr. Govinda Rao Private Secretary, paid a visit on the 8th Feb--ruary 1910. The following State Officers also visited the Distillery during the year under report:-

1. Mr.K.P.Puttannachetty, 1st Councillor.
2. Mr.A.Rangaswamy Iyengar, Revenue Commissioner
3. Dr. Smeeth, State Geoligist.
4. Mr.H.D.Rice, Executive Engineer, Bangalore Division.
5. Mr.K.Krishna Iyengar, Personal Assistant to the Chief Engineer.

Attenuation Register.

11. As the Wash-backs could not be spared for gauging, the introduction of this register could not be enforced. Arrangements will, however, be made to get a few extra backs and gauge all of them by turns and on completion, the register -- will be maintained. In the meantime the account of attenuation of wash now recorded by the Dis--tillers serves as a guide for all calculations.

Privilege of Manufacture.

12. The manufacturing contract of Messrs A. Narainswamy Mudaliar and Co., and Bajjanna ran through its final year. The same firm has, however, been allowed to continue their contract

for

for another period of 3 years on altered condi-
-tions.

Supply to Coorg.

13. The Manufacturing Contractors were allowed to manufacture in the Central Distillery the necessary supply of arrack for Coorg and to -- export the same free of duty subject to the same conditions as in the past year.

Manufacture.

14. The quantity of arrack manufactured -- amounted to 491601 gallons 27 drams which added to the opening balance of 14593 gallons 11 drams on hand at the beginning of the year gave a total stock of 506194 gallons 38 drams. Deducting -- wastage to the extent of 7688 gallons and 37 drs. and a quantity of 617 gls. 22 drs. taken for -- methylation, the net stock was 497888 gallons and 30 drams. Of this, 487381 gallons and 6 drams were issued from the Distillery, leaving a -- balance of 10507 gallons and 24 drams or 11901 gallons and 20 drams in terms of 20 U.P. or --- 12694 gallons and 30 drams in terms of 25 U.P.

Issues to the Civil and Military Station and Coorg.

15. 77666 gallons 38 drams of ordinary arrack 110 gallons of rectified spirit, 3465 gallons of

rum

rum and 74 gallons of Methylated Spirit were --- issued to the Civil and Military Station against 74467 gls. and 22 drs., 88 gls., 4586 gls. and 589 gls. respectively, in the previous year. The issues to Coorg amounted to 15398 gls. and 23 drs of Over-Proof spirit against 17262 gls. and 41 dr in the previous year.

Issues to the State.

16. The issues from the Central Distillery to the Bonded Depots under bond to licensees on pre--payment of duty and to Government and charitable Institutions free of duty amounted to 389275 gls. and 16 drs. as detailed hereunder:-

	Gls.	drs.
Molasses arrack.	383981 -	11
Jaggory arrack.	1728 -	8
Proof-Spirit.	120 -	0
Special Liquors.	2380 -	22
Rectified Spirit.	516 -	0
Methylated Spirit.	549 -	26

Methylated Spirit.

17. 623 gls. 26 drs. were manufactured and issue from the Distillery against 1087 gls. 25½ drs. in the previous year. To the Civil and Military --- Station only 74 gls. were supplied during the year under report, while 589 gls. were supplied in the previous year. This accounts for the fall in the issues of this spirit from the Distillery and the fall in the Civil and Military Station is due to more licenses being issued throughout the State.

The

The issue for local consumption was 549 gls. and 26 drs. against 498 gls. and 26 drs. showing an increase of 51 gallons. The number of licenses issued for the sale of this spirit was 16 against 11 of the previous year and the quantity sold was 421 gls. and 25½ drs. against 334 gls. and 42½ drs.

Issues free of duty.

18. The details of issues of rectified spirit and methylated spirit free of duty to Government and charitable Institutions were as follows:-

	Rectified spirit.	Methylated spirit.
Superintendent, Medical Stores	390 Gls.	90 Gls.
Medical Officer, Victoria Hospital ...	"	24 Gls.
Agricultural Chemist	28 Gls.	"
St: Martha's Hospital	24 Gls.	"
State Geologist ...	"	4 Gls.
Total.	442 Gls.	118 Gls.

Adequacy of supply.

19. On a few occasions the stock maintained in the Distillery fell short of the minimum quantity prescribed through unforseen circumstances but no practical inconvenience was felt on this account.

20.

Quality of Spirit.

20. The use of solidified Java molasses in the manufacture of spirit has not given rise to any complaints as to its quality.

Transport of arrack.

21. Messrs Bajjanna and Maigondadeva Mudaliar continued to be the Carrying Contractors throughout the year. The quantity of arrack and other country spirits transported by them amounted to 388639 gls. 47 drs. of which 77599 gls. 38 drs. were to the Bangalore City Depot and the balance to the outlaying Depots. The remuneration payable on account of the quantity of spirit transported amounted to R$.55480-12-11 as detailed in Appendix B. The wastage both bung and stand on the quantity of arrack transported to moffusil depots was 4049 gls. 30½ drs. or a percentage of 1.3.

22. The construction of Bonded Depots was not taken up during the year under report as no funds were provided therefor. For the year 1910-11, a sum of R$.25000/- has been promised and the Chief Engineer has been requested to construct buildings in the more important places. The present

present system of allowing Government arrack to be stored in any hole and corner of the bazaar far away from the taluk cutcherri and in unsafe mud houses cannot be too strongly condemned. The Carrying Contract with the same firm has been extended to the year 1910-11 also. In this connection, ~~it~~ is noted with deep regret the sudden death of Mr. Maigondadeva Moodaliar, one of the partners of the Carrying agency ~~and~~ a set In consequence arrangements are being made to change the name of the firm to Messrs. Bajjanna and A. Narainsawmy Moodaliar and Co.

Advance to Manufacturers.

23. The particulars of the advance with the adjustment and the balance are shown in Appendix A. The outstanding balance includes the value in money of the stock of spirits in the several bonded depots on the morning of the 1st July 1910 and also the cost of proof liquor utilised for adjustment at Government cost.

Bonded Depots and issues therefrom.

24. The number of bonded depots continued to be the same as in last year (viz., 62 in taluk head -quarters and 8 in outlying places). Out of the 70 depots now existing, one at Bowringpet, supplie

supplies only jaggory arrack and Methylated spirits, the special liquors being indented for by the licensees direct from the Distillery.

25. The quantity of arrack issued from the Bonded Depots for public consumption amounted to 383319 gls. 2 drs., which gives an incidence of 3.6 drams per head of population. In the Cities of Bangalore and Mysore the incidence was 52.0 and 25.8 respectively, while in the Kolar Gold Fields, it was as high as 78.6. Comparing with the previous year the incidence has decrease in the Bangalore and the Kolar Gold Fields, while it has remained the same in the Mysore City. The incidence for the whole State has, however, gone down by .2.

Number of shops.

26. The number of arrack shops for the sale of country spirits was 824 or 35 less than in the previous year. The decrease occurred in all the Districts except Mysore and Hassan. In addition to the 17 shops that were closed in the previous year in the Bangalore District, 12 more were closed in the year under report. In the Shimoga

and

and Kadur Districts, however, as many as 9 and 7 shops were closed, while, Kolar, Tumkur and Chitaldrug contributed to the closure of 3, 2 and 2 shops respectively. The sale of spirits at weekly fairs was prohibited and the jatra -- shops have been considerably reduced, as hawking of liquor at these gatherings is condemned. The legitimate demand for spirits is, however, kept in view in licensing and closing shops.

27. The particulars of transactions of all liquors in the several Bonded Depots are noted in Appendix J.1.

Area and population per shops.

28. During the year under report, there was one arrack shop for 36 square miles and 6614 -- people. The details are noted in Appendix D. The Districts of Bangalore and Shimoga are the heaviest arrack consuming centres and have one arrack shop for 15 and 25 square miles respect--ively, while in the District of Kolar, which is more important on account of the Gold Fields, there was one arrack shop for 18 square miles.

Rentals.

29. The rentals obtained from the sale by auc--tion

auction of the right of vending arrack in the -- Retail shops, inclusive of the Jatra shops rose from Rs.354140-8-0 to Rs.364133-8-0 in the year under report. The net increase of Rs.9993/- is noticeable in all the Districts -- except Kolar and Tumkur and is attributed to keen competition.

Consumption.

30. The total consumption of arrack amounted to 383319 gls. and 2 drs. against 402947 gls. and $7\frac{1}{2}$ drs. The net decrease of 19628 gls. and $5\frac{1}{2}$ drs. is distributed throughout the Districts except Hassan which shows a small increase of 626 gallons accounted for by the work of recons--truction of Krishnaraj Anekat and to the im--proved seasonal conditions. While the Deputy Commissioner, Kolar District, explains the fall in consumption of 5615 gallons and 34 drams to be due to the paucity of public or other larger works drawing in the professional and drinking classes of hard labourers, the Deputy Commis--sioner of Tumkur ascribes the fall of 1536 gls and 49 drs. to the impoverished condition of th drinking class as the effect of adverse season

of

of the previous year. The decrease in con-
-sumption in the Mysore District amounting to
1218 gls. and 43 drs. is explained by the Deputy
Commissioner to be chiefly due to the abolition
of Transport Mule Staff in the Public Cattle --
Department at Hunsur and to general depression
of industry. The closure of 9 arrack shops in
Shimoga and the preference for jaggory arrack --
and special liquors are said to have contributed
to the fall of 1338 gls. and 7 drs. in consump-
-tion in that District. The Deputy Commis -
-sioner of the Kadur District which shows a fall
of 630 gallons, explains it to be due to the --
larger consumption of special liquors and to the
exodus of the population from affected parts --
who had come to Malnad in search of labour during
the drought of the previous year. The small
decrease of 63 gls. and 13 drs. in the Chital-
-drug District is attributed to the departure
of large gangs of stone Wadders from those - -
localities which contributed to the same.

31. The District of Bangalore records the

highest

highest fall, viz, 9851 gls. and 12½ drs. The Deputy Commissioner explains it to be due to the unfavourable season of the year and to the consequent high price of food grains, as also to some extent to the better supply of toddy in some parts. Although numerous and various reasons are ascribed by the several Deputy Commissioners for the decrease and increase in consumption, it is impossible to arrive at the true reason, but it may be generally noted that a bad revenue year, i.e., a season when the rain-fall is scanty means a rise in the Excise Revenue and which may be ascribed to the fact that when relief works are in progress the non-drinking public resort to drink to a certain extent to sustain themselves of course helped out by the Wadders and others gathered there for the purpose.

Jaggory Arrack.

32. The consumption of sugar cane jaggory arrack fell from 2650 gls. and 25½ drs. to 1812 gls. and 21¼ drs. The loss was general over the whole Province being heaviest in the Kadur District to the extent of 461 gls. and 29¾ drs.

said

said to be due to a growing demand for Special Liquors. Next follows Kolar where there was a fall of 153 gls. and 8½ drs. which is attributed to the inadequate supply of this liquor in pint bottles from the Distillery. Out of the two shops that were licensed to sell this liquor in the Kolar Gold Fields in the previous year, one was utilized in the year under report for sell-ing exclusively molasses arrack in sealed -- bottles to act as a check over the vendors in the ordinary retail shops having recourse to short measuring and other illicit practices. Hence the closing of this shop against the sale of jaggory arrack may have also effected the consumption. The Manufacturers have, however, received subsequently a sufficient stock of quart and pint bottles ready to meet all demands. The District of Tumkur shows a slight increase of two gallons and 25½ drams, while the fall in the other Districts is too small to require any -- explanation.

Special Liquors.

33. The number of shops licensed to sell these liquors continued to be the same as in last year

numbering

numbering 10 for the ~~Province~~ State, and the quantity sold in these shops increased from 665 gls. and 47¼ drs. to 1017 gls. and 45½ drs. Adding to this the quantity sold in the Foreign Liquor - - shops of the Kolar Gold Fields and in the retail arrack shops specially permitted to sell such - liquors, the total consumption during the year came to 4231 gls. and 50½ drs. against 2188 gls. and 38 drams. The doubling of the consumption clearly demonstrates that these liquors are - - becoming popular. These liquors have, as report -ed in the last Administration Report, replaced to some extent the consumption of cheap Foreign Liquors as will be seen in para 38 infra.

34. The price of these sophisticated liquors is fixed by the Manufacturer who, in competing with the cheap Foreign brands, is compelled to keep it as ~~@@@@~~ low as possible and the consump- -tion figures indicate that no prohibitive - - prices are fixed. As observed by Major Bedford in his " Alcoholic Liquors in India ", the mark of respectability which impelled people to resort

to

to imported brands is losing ground in this State. Taking from a revenue point of view, apart from the quality, the sale of these spirits which bring in duty to the State revenue is much to be preferred to the Foreign imported brands which pay no duty whatever. As, however, the legitimate demand for European liquors has to be met, the sale of these is permitted under such restrictions as not to allow them to encroach upon the country liquor trade.

Proof Spirit.

35. The expenditure of this spirit for adjusting purposes is controlled with the greatest economy. Bowringpet Bonded Depot which consumed 968 gls. and 21 drs. and 156 gls. and 19 drs. in 1906-07 and 1907-08 respectively, shows no expenditure under this head during the year, owing to greater scrutiny on the part of the Excise Assistant Inspector deputed for duty at the Depot. The quantity taken up for adjustment during the year under report is 104 gls. and 47½ drs. in all the Depots against 153 gls. and 22¾ drams. The quantity utilized in the

the Sorab, Chickmagalur, Saklespur and Yeslur - Bonded Depots was rather heavy. The distance of these from the Central Distillery may partly account for it.

Revenue per gallon of Country Spirit.

36. The Revenue collected per gallon of country spirit is exhibited in the following state - -ment : -

Dis- -trict.	Quantity consumed.	Amount of rental.	Incidence of vend rents per gallon. 1908-09	1909-10	Margin of profit.
	Gls. Drs.	Rs. a p	Rs. a p	Rs. a p	
Bangalore.	121666 - 45½	81564-0-0	0- 9-6	0-10- 8	
Kolar.	92590 - 17	136944-8-0	1- 6-8	1- 7- 8	+
Tumkur.	10365 - 2	10329-8-0	0-14-8	0-15-10	+
Mysore.	53092 - 8	33394-0-0	0- 8-4	0-10- 1	
Hassan.	17056 - 0	15327-8-0	0-13-0	0-14- 4	Rs.0-15-1
Kadur.	31553 - 0	30823-0-0	0-14-6	0-15- 7	+
Shimoga.	48402 - 18½	47109-0-0	0-15-1	0-15- 7	+
Chitaldrug.	8593 - 13	8642-0-0	0-15-2	1- 0- 1	+
Total.	383319 - 2	364133-8-0	0-14-1	0-15- 2	

The incidence of vend rental has exceeded the margin of profit in the Districts of Kolar, - Shimoga,

Shimoga, Chitaldrug, Kadur and Tumkur. This may tend to show that the licensees resort to mal-practices to re-coup themselves, in spite of the vigilance of the staff. There is nothing, however, unusual in this feature, owing to the peculiar characteristics of the population of these Districts; these variations do defy al forecasts.

Chapter III . Foreign Liquors.

Number of shops.

37. The number of shops during the year was 25 against 26, one Refreshment Room on the Kolar Gold Fields being closed. The number of licenses issued fell from 61 to 50. The Refreshment Rooms on the Kolar Gold Fields were sold by auction during the year under report and fetched a price of Rs.1877/-. There was no change in the rest of the shops. 9 Occasional licenses were issued during the year, 8 in the Bangalore District and one in the Mysore District. The fees amounted to Rs.75/-.

Consumption.

38. The decrease in the consumption of Foreign liquor from 42921 gls. and 14 drs. to 41401 gls. and 30 7/8 drs. may be attributed to the two-fold increase in the consumption of special liquors as noted above. It is interesting to note how soon the expectations on the successful working of the measures prescribed were realized. It may, at this stage, be said that the danger apprehended in the encroachment of the Foreign brands on the country liquor market has already begun to be averted. With a few more restrictions now under contemplation, there

there need be no fear at all.

Revenue.

39. Inclusive of the surcharge fees, the license fees amounted to Rs.13697/- against Rs.11986/- of the previous year. The increase is due to the sale by auction of the Refreshment Rooms on the Kolar Gold Fields. Comparing the Revenue with the consumption of the previous year and of the year under report, the policy of the Department that increase in revenue should be followed by a decrease in consumption appears to have established itself with significance.

Chapter IV. Toddy Revenue.

Date Toddy.

Shops.

40. The number of date toddy shops was reduced from 2688 in the previous year to 2636 in the year under report. The 52 shops that were closed were found to be superfluous. The existing shops average one shop for 2067 persons and for 11.4 square miles.

Rentals.

41. The rentals fetched from the sale of date shops amounted to R$.13,83,610-6-4 against R$.13,80,460-9-0 resulting in an increase of R$.3149-13-4. The Districts of Mysore, Hassan and Bangalore contributed to an increase of nearly R$.35000/- and is attributed to keen competition while the other Districts showed a loss of nearly R$.32000/- which is explained to be due to the losses sustained by the contractors on account of the adverse seasons of the past years It is noticeable that the District of Mysore records the highest rise while that of Tumkur has the greatest fall. The percentage of rentals to total revenue was 69.5 against 67.9 of the previous year.

Number of trees tapped.

42. The number of trees tapped for local consumption was 435618 date and 3918 cocoanut -- against 469955 date and 4191 cocoanut of the previous year. These figures do not include -- 19228 date and 500 cocoanut trees tapped in British Territory for Mysore shops against the corresponding number of 20255 date and 552 cocoa-nut trees of the past year. The decrease is noticeable in all the Districts except Kadur -- which has tapped a thousand trees more. This fall is ascribed to the impoverished condition of the drinking classes. It may also be due to the increase of last year due to the paucity of yield from the trees on account of failure of rains and that in the year under report the trees have revived to some extent owing to change of seasonal conditions; the tree tests point to this latter. In the Bangalore District 54 palmyra trees were tapped in the year under report while for the Kolar District shops 10 trees were tapped locally and 80 in the British territory. This is a new departure so far as the Bangalore District is concerned and if found to answer will be a source of profit hereafter as hitherto -- these

these trees have been standing idle.

Government and private trees.

43. The total number of trees tapped in Mysore both for local and British shops amounted to 472733 trees of which 291036 were Government trees standing on unoccupied lands and the rest were private trees. The licensees of the Mysore State tapped during the year under report as many as 167600 trees in private lands and the remaining 14097 were taken up by the British renters. The following table explains the above figures more clearly :-

	Govt.	Private	Total.
For Mysore shops.	288086	167600	455686 .
For British shops.	2950	14097	17047 .
Total.	291036	181697	472733

Preference is generally given to tap private trees as the yield is higher owing to their generally standing in cultivated lands. The amount of tree-rent credited to Excise proper was Rs.69207-11-7 against Rs.71345-3-7 in 1908-09. Further details about tree-rent are noted in Appendix F - 1.

44. The percentage of Government, private and British

British to the total number of trees stands as follows: -

	1909-10.	1908-09.
Government trees.	61.2 %	58 %
Private	34.7 %	36 %
British	4.1 %	6 %

Appendix G. I.

45. The percentage of tree-tax to the total toddy revenue fell from 32.0 to 30.5, while that of rental rose from 68.0 to 69.5. From a comparative study of the figures in this appendix we find that the rental which was 66.4 % in 1898-99 rose to 72.3 % in 1902-03, at the end of the first quinquennium and showed a downward tendency in 1907-08 by coming down to 66.8 % with the close of the second quinquennium Then again it has begun to rise since 1908-09. The fluctuations have been gradual. The increase for the past two years may be ascribed to the fixing of the upset price of toddy shops on the average rental of the previous three years and extending the leases in some of the Taluks to 3 years to obviate the inconvenience of the annual auction system. Ever since the introduction of the tree-tax system the tree-tax is oscillating

between

between 33.6 and 26.4 % of the total toddy revenue. The results of two more years which close the third quinquennium may give us a more correct idea as to the necessity or otherwise of increasing this main factor of our Revenue. In the meantime the experience of extended leases of toddy shops may also throw some light on the subject. I consider these figures most unsatis-factory as there can be no doubt that the legi-timate Excise Revenue so far as toddy is concern-ed should be derived from the taxing of the trees rather than the shop rental, as this latter means that the vendor either sells short measure or adulterates the toddy before sale and for this reason I am in favour of fixing the rentals.

Trees tapped for the Madras Presidency.

46. The number of trees tapped in Mysore for the shops of the Madras Presidency amounted to 16127 date and 920 cocoanut as against 19118 date and 185 cocoanut in the previous year, while the Mysore licensees have taken up 19228 date, 500 cocoanut and 80 palmyra as against 20255 date and 552 cocoanut trees. Thus there has been an increase in the number of trees tapped outside

for

for the State and a decrease in the number tapped in the State for outside shops. This intertapping as was observed last year is only due to the convenience of the renters concerned.

Date Plantation.

47. In the Bangalore District the plantations in the Magadi and Devanhalli Taluks are reported to be in good condition. In the Mysore District attempts are being made to open new plantations in the Nagamangala and T. Narsipur Taluks. The Deputy Commissioner, Kolar District reports that the plants in the Dodkurugod, Hunsanahalli and Kanivekal plantations have attained their tappable condition, while those in Guttahalli are sufficiently mature to protect themselves from goat and cattle browsing. He also reports that Nonamangala and Kodikannur plantations are promising. I now propose to start a large number of date plantations of a workable area in the Goribidnur Taluk which is the house of the date tree and from where toddy can easily be transported to Bangalore and the Kolar Gold Fields and other large centres.

48. Attempts are being made to open as many plantations

plantations as possible in the Goribidnur Taluk which is the most suitable tract for date palms. Many Taluks depend upon Goribidnur for their -- supply of toddy and this Taluk is most convenient being easily accessible from such places. Experi--ments to grow date groves will be tried in some of the treeless Taluks of the Province where the soil is adapted for the growth of palms to supple--ment the already over-exhausted existing groves. Every precaution for the conservancy of date - - groves is, however, being taken.

49. It is also proposed to start date planta--tions in the neighbourhood of Anavatty in the Shikarpur and Sorab Taluks to supply the shops in those Taluks. It is reported that there are a large number of date groves just across our border in the Kod Taluk but no arrangement has yet been made with the Bombay Presidency to reci--procate in the same manner as in the Madras - - Presidency probably because we cannot give a -- quid pro quo.

Inamdars' claims to Toddy Revenue.

50. During the year 34 cases involving 47 -- villages were settled. In respect of only 2 cases

cases, the claims were recognized, while in the others, they were rejected. The former belong to the Mysore District. Further, the investiga-tion in respect of 16 villages in Mysore, 16 villages in Tumkur and 4 in Kolar District is partly finished.

51. In 27 cases involving 37 Inam villages, refund bills amounting to Rs.64406-2-0 were sub-mitted to Government during the year. Bills amounting to Rs.22190-11-0 of 18 villages have been sanctioned by Government.

52. The work done in this connection in the Mysore District is satisfactory. After final orders are passed by Government on the working of Rule 13, a larger number of claims will be settle It is very greatly to be regretted that no deci-sion has yet been arrived at by Government regarding the disposal of the Yelandur Jahagir claims and which has been hanging on for many years now although the Sringeri Jahagir claims which appear to be the same as the Yelandur Jahagir were settled many years ago and I can onl trust that Government will come to some early decision

decision in the matter.

Bagani Toddy.

Number of shops.

53. During the year under report there were 719 shops for the vend of Bagani toddy as against ~~838~~ 828 of 1908-09. The decrease of 119 shops, is distributed to all the three Malnad Districts of Hassan, Kadur and Shimoga. In the first as many as 20 shops were closed while in the second and the third 48 and 41 shops were not sold for want of proper bids and subsequently closed. The number is still capable of reduction, which will be decided on at the time of sales.

Rentals.

54. The auction proceeds of Bagani toddy shops amounted to R^{s}.35037-6-0 against R^{s}.35251-4-11 of the previous year. The District of Hassan showed an increase of R^{s}.1062-5-1 while Shimoga and Kadur lost R^{s}.605-8-0 and R^{s}.670-12-0 respectively. No reasons are assigned for these fluctuations, but it may be said on the whole that the closure of the shops must have affected the rentals.

Number of trees tapped.

55. Under this head also the number of trees tapped fell from 16449 to 16086. The decrease of 363 trees is made up of an increase of 21 trees

trees in the Kadur District and a decrease of 312 trees in the other two Districts.

For 1910-11 certain facilities for the speedy marking of Bagani trees have been created but the Deputy Commissioner of Kadur apprehends that the staff should be strengthened for a -- systematic patrol of the inaccessible jungles. I am inclined to agree with him and strongly urge the increase of staff in the Malnad tracts.

Chapter V. Country Malt Liquors.

(1) B e e r .

Number of Taverns.

56. There were, during the year under report, only two country Beer taverns - one at Robertson--pet and the other at Bowringpet - in the Kolar District. These were sold by public auction at a license fee of Rs.57/- and Rs.35/- per hogs-head respectively against Rs.70/- and Rs.35/- in the previous year. The duty at two annas and one and a half pies per gallon was also levied in addition to these hogs-head fees.

57. As usual a special license was issued to the Canteen held by the Military authorities in the Camp of Exercise in the Devanhalli and Dod--ballapur Taluks. The licensees of Foreign and special liquor shops were also permitted to sell the Bangalore Brewery bottled beer.

Consumption.

58. The total quantity of Beer consumed during the year was 4953 gallons against 5660 gallons the previous year. The decrease is chiefly due to the less consumption in the Canteen.

(2) Akkibhoja.

Number of shops.

59. Thirathahalli Taluk of the Shimoga District and

and Koppa and Mudigere Taluks of the Kadur Dis-
-trict are the only places in the State where --
shops for the vend of Akkibhoja or rice-beer - -
were licensed. In consequence of the numerous
complaints received from different quarters about
the deleterious effects of this drink, the Deputy
Commissioner of the Kadur District expressed his
intention to gradually reduce the number of --
these shops in that District. In pursuance of
his intention 4 out of 12 shops were closed --
during the year under report and even the exist-
-ing 8 were ordered to be shut during the current
year merging their rentals in the Bagani and
arrack shops in their vicinity. Thus the number
of shops licensed in both the Districts during
1909-10 was 43 against 47.

Revenue.

60. The rental fetched by the sale of these shops amounted to R$.3938-8-0 against R$.3790-4-0 The Shimoga District contributed to an increase of R$.164-4-0 which is attributed to the great -- demand, there is for this drink at the place. In-spite of the closure of 4 shops in the Kadur -- District there was an increase of R$.29/-. This

shows

shows that the demand for this beverage is not less in that District also.

61. The Deputy Commissioner, Shimoga, urges the necessity of bringing the preparation of this drink for home consumption under supervision and control to prevent its encroachment on the con-sumption of other liquors and cites 5 cases of unlicensed sale prosecuted and convicted during the year. This matter will engage my attention and suitable measures will be provided ere long after a thorough enquiry on the spot.

Chapter VI. Intoxicating drugs and Opium.

(1) G a n j a .

Supply of Ganja.

62. By courtesy of the Madras and the Central Provinces' Governments a stock of 430 Bengal -- Maunds of Ganja was imported duty free to meet the demand in the State as there was only a stock of 44 maunds and 25 seers in the Provincial --- Ganja Stores on 1st July 1909.

Cultivation of Ganja by Amani.

63. On account of the failure of timely rains the experiment of growing Ganja in the Kayamgutta Golahalli village of the Bangalore Taluk was not as successful as it was expected to be although all the necessary precautions were taken, but the climate and soil were not found suitable. As it was believed that Ganja would grow better in low-lying lands of Goribidnur, an attempt was made to plant a small area of about an acre near Dodkurugod of the Goribidnur Taluk and in spite of lateness of the season, the crop that was raised was very hopeful.

64. With the experience thus gained it has been decided to grow the drug extensively at -- Dodkurugod

Dodkurugod and round about Goribidnur and with this view a quantity of seed worth Rs.300/- was purchased from Khandwa of the Central Provinces and is being given out to the ryots to whom - - licenses have been granted. As this growing of Ganja by ryots requires constant supervision an establishment consisting of one Overseer and 4 peons is being employed. The sowing operations have already begun and the result is being keenly watched.

Price of Ganja.

65. The price of Ganja has been raised from Rs.1/- to Rs.1-4-0 per seer of 80 tolas from 1st July 1910 to meet the extra cost involved in the import of the drug.

S H O P S !

66. The number of retail shops during the year under report was 236 against 238 of the previous year. Two shops in the Shimoga District were closed for want of bids. The incidence was, therefore, one shop for 124.1 square miles and for 22995 persons against 124 square miles and 22898 persons.

R e n t a l .

67. The rentals realized from the sale of Ganja shops

shops amounted to Rs.23648-12-0 against - - Rs.21652-12-0 thus resulting in an increase of -- Rs. 1996/-. The loss of Rs.176/- in the Tumkur District is made good by the gain in all the - - other Districts which is attributed to keen com--petition.

Consumption.

68. The quantity of Ganja retailed during the year was 10559 seers and 40 tolas against 9086 seers and 42½ tolas in the previous year. There was an increase in all the Districts except - - Tumkur which shows a loss of 13 seers. The better quality of the stuff supplied and the suppression of smuggling to some extent from British frontiers have no doubt contributed to this result.

(2) M a j u m .

Majum.

69. This preparation of Ganja is sold to licensees of Ganja shops from Bonded Depots after a levy of a duty of Rs.1-1-0, at price Rs.0-6-6 for a seer of 80 tolas and has a great demand in the Districts of Bangalore, Kolar and Shimoga.

Consumption.

70. The quantity of Majum sold during the year was

was 436 seers and 40 tolas or 43 seers more than in the previous year. The increase is distributed over all the three Districts where it was consumed. The District of Kadur where 5 seers had been sold in the year previous did not take any in the year under report.

(3) Cocaine and Novocaine.

71. In the Bangalore City 5 licenses for the possession of Cocaine were issued to Chemists and Druggists and one to the chief Medical officer Kolar Gold Fields.

72. Permit for import of Cocaine was granted to the Inspector/Cattle Diseases and to the Senior Surgeon for use in the several hospitals in the State.

O P I U M .

Supply.

73. The opium required for consumption continued to be obtained from the Madras Store-House through the Residency.

Price.

74. The price of the opium supplied continued to be Rs.11-9-0 per seer of 80 tolas during 1909-1910.

75.

Number of shops.

75. There were during the year under report 110 shops for the sale of opium against 113 of the previous year, one shop in each of the Dis--tricts of Mysore, Shimoga and Chitaldrug having been closed. The incidence was one shop for 267.5 square miles and for 49544 persons.

Rental.

76. There was a fall in the rentals of opium shops from R$.9378/- in 1908-09 to R$.8578-10-0 in the year under review. The decrease of R$799-6-0 is made up of a small increase in each of the Districts of Hassan and Kadur amounting to -- R$.99-8-0 and a decrease of R$.896-4-0 in all the other Districts. The prohibition of vending opium in Jatra and fairs may have contributed to this decrease.

Consumption.

77. During the year 1909-10 a quantity of -- 1226 seers and $30\frac{3}{8}$ tolas was consumed against -- 1217 seers and $9\frac{1}{2}$ tolas in the previous year. The small increase of 9 seers and $20\frac{7}{8}$ tolas calls for no remarks.

License to Medical Practitioners.

78. As in the year previous only 5 licenses -- were granted to Medical Practitioners in the -- year

year under report.

Gain. 79. The gain on sale proceeds of opium amounted to Rs.31571-13-0 against Rs.34635/- of the previous year.

Chapter VII. Measures for the protection of the Revenue.

General results.

80. During the year 1909-10, 1967 cases affecting 2431 persons were reported against 1858 cases affecting 2728 persons in the previous year, and including those pending from the previous year 2309 cases affecting 2990 persons came before the Officers of the Department as against 2128 and 3073 respectively in 1908-09. Exclusive of the cases of date leaf cutting which are not Excise offences the Department had to deal with 2246 cases during the year. Appendix M gives a classified statement of the offences reported and it will be observed therefrom that under the several heads there were 496 cases under heinous offences, 1408 under breaches of license conditions and 63 under date leaf cutting during the year under review against 328, 1272 and 258 respectively in the previous year. There has been a perceptible rise in the cases under the first two heads while those under the last have gone down considerably. Want of clear instructions in dealing with date leaf cutting

cases

cases may have contributed to this heavy fall. The constant inspection of groves by Departmental Officers has also acted as a check on the commis-sion of the offence. The subject is not free from some complications and Government orders are awaited on a reference suggesting the issue of certain instructions to facilitate dealing with such cases. Of the cases under Excise Regulation and Rules affecting liquors, 8 related to amuggling, 19 to illicit distillation , 185 to illicit tree-tapping and 188 to illicit trans-port, unlicensed sales, possession without --- license, dilution and use of false measures. Under offences relating to intoxicating drugs the year under report is conspicuous in the detection of 71 cases of illicit cultivation of the hemp plant and only 12 under smuggling. Under opium 3 cases were reported one relating to unauthorise sale, one to the possession and sale of Maddath and the last to the illicit cultivation of one poppy plant. The fall in the number of cases under Ganja smuggling is noticeable in the Kolar and Shimoga Districts which reported no cases in

the

the year under report, against 11 of the past year; while Mysore shows a single case against 8 in the previous year. Nevertheless there has been a considerable rise under detection of illicit cultivation of the hemp plant which has 71 against 26 of the past year.

Bangalore District.

81. Though there is a considerable fall in the number of liquor smuggling cases, those relating to the smuggling of contraband Ganja have increased from 4 to 6. The offences of illicit transport, unlicensed sales and dilution of liquor have risen from 10 to 53 but those relating to breaches of license conditions have gone down from 274 to 273. No cases of opium smuggling were reported during the year, but a case of unauthorised cultivation of a poppy plant reported from the Devanhalli Taluk ended in conviction. The Deputy Commissioner urges the necessity for a detective staff at the British frontier in the Hosur Taluk to check the smuggling of toddy and Ganja therefrom.

Kolar District.

82. The two cases of illicit distillation -- detected

detected by the patrol party of Bowringpet at the close of the previous year are reported to have ended in conviction. Two cases of illicit trans-port of British Toddy were also detected by them during the year. Judging from the result, the Deputy Commissioner is of opinion that the employ-ment of this party has been a wholesome check on the culprits and that their services will also be utilised to patrol the frontier in the Malur -- Taluk.

Tumkur District.

83. There has been a decided improvement in the detection work of this District during the year which has reported 36 cases under heinous offence and 233 under breaches of license conditions - - against 12 and 114 respectively. The only case deserving of mention in the District is the smug-gling of British Toddy into the State reported from the Pavagada Range which ended in the convic-tion of both the accused concerned. But I am afraid that the large fall in arrack consumption points to the fact that there is a lot of undetec-ed illicit distillation.

Mysore District.

84. In this District there has been a fall in the number of cases under breaches of license -- conditions from 171 to 103, while those under heinous offences have risen from 36 to 53 which is very satisfactory. The only noteworthy case is the one reported from the Mysore City Range relating to smuggling og British Ganja to the Mysore City which was prosecuted to conviction. The Deputy Commissioner is of opinion that it is high time to organize a specially trained detective staff to prevent and detect the growing smuggling of British Ganja.

Hassan District.

85. The decrease of 8 cases under breaches of license conditions is the only feature in this District. The number of heinous offences has risen from 42 to 50 in spite of the detection of 21 cases under illicit cultivation of Ganja -- during the year. The Deputy Commissioner again urges the necessity of strengthening the sub-ordinate staff and of the organization of a patrol party to put down illicit tapping in the Malnad tracts.

Kadur District.

86. Although the number of cases both under heinous

heinous offences and breaches of license condi-
-tions have risen from 67 and 150 to 95 and 196
respectively, the preventive work of the Depart-
-ment cannot be said to be satisfactory, inasmuch
as only one case under illicit distillation has
been reported against 10 of the past year. No
doubt there has been some improvement in the --
detection of illicit tapping cases being 74 --
against 55, but the non-detection of illicit dis-
-tillation cases which are rife in the District
is anything but creditable to the officers con-
-cerned, especially as consumption has decreased
by 630 gallons. There were frequent changes in
the District Excise Officers of the District and
this may partly be the reason for the above.

Shimoga District.

87. This District also shows a fall in the --
number of illicit distillation cases being 16 --
against 35. Shimoga and Shikarpur Taluks abound
in lambanies who are the habitual distillers of
the place. Comparing the consumption, the fall
of 1137 gls. in the former and of 268 in the -
latter confirms that sufficient attention has -
not been devoted to this important work. The

number

number of cases detected under other heads is satisfactory being 195 against 159 under breaches of license conditions and 112 against 78 under heinous offences.

Chitaldrug District.

88. This District which showed 12 illicit distillation cases in the previous year has not shown any in the year under report. The Harihar frontier of the Bombay Presidency and the villages bordering on the Honnalli Taluk of the Shimoga District are known to be a good field for the detection of such cases. The Deputy Commissioner brings to notice the necessity of employing a special detective staff as the present staff with their multifarious duties are not able to devote more than spasmodic attention to this important preventive work. The detection in other respects is satisfactory being 148 and 33 against 69 and 27 respectively both under breaches of license conditions and heinous offences.

Date leaf cutting.

89. The number of cases of unauthorized cutting of date leaves fell from 258 to 63. The decrease is

is noticeable in all the Districts except in -- Shimoga which reported 4 cases only in the year under report. The Deputy Commissioner of the Hassan District attributes the heavy fall in his District to the copious rain fall in the year under report and the consequent immunity to the date leaf for purposes of fodder. The fall in the other Districts has not been explained, but may be attributed to the same reason.

Departmental disposal.

90. Appendix M - 1 shows the disposal of -- cases by the Officers of the Department. The percentage of cases disposed of by these Officers fell from 86.3 in 1908-09 to 85.9 in the year -- under report. The slight decrease does not call for remarks. Bangalore had the heaviest file while Hassan had the lowest and the percentage of disposal in these Districts was 85.0 and 85.6 respectively.

Disposal by the Magistracy.

91. Appendix M - 1. Including the pending cases the Magistrates had to dispose of 478 cases. Of these 425 cases have been disposed of leaving a balance of 53 cases at the end of the year under report.

report. Out of 805 persons concerned 577 were convicted, 115 acquitted and 19 disposed of other-wise and 94 are awaiting trial. The percentage of conviction was, therefore, 71.6.

Opium Cases.

92. No cases of opium smuggling were reported during the year.

Rewards.

93. During the year under report a sum of Rs.258/- was sanctioned as rewards and Rs.225-12-4 were spent on Secret Service. The total expenditure came to Rs.483-12-4.

Assault on Officers.

94. A case of assault on the person of Assistant Inspector, G. Hemsingh, of the Thirathahalli Taluk, whilst on duty was reported from the Shimoga District. But the three accused persons concerned therein were acquitted for want of evidence. Besides two cases were reported from the Mysore District which also ended in the acquittal of the accused for the same reason.

Detective Staff.

95. All the Deputy Commissioners strongly urge the necessity for the employment of a special detective staff for the efficient safe-guard of the State Excise Revenue. The Bombay and the

Madras

Madras frontier tracts need systematic patrol and this additional work cannot be thrown on the general staff who are already burdened with multifarious duties. A proposal to start a training school was made to Government but no funds were found available. I cannot impress upon Government the necessity of this and will again submit my proposals shortly.

Inspection.

96. Appendix O shows the details of inspection and Itineration made by the District Excise officers. The number of days the District Excise Officer of Tumkur was out on tour is noted as 67 and this cannot be regarded as satisfactory. The Itineration of the other Officers calls for no remarks. The Inspection of shops and Depots of all the Officers was good.

97. During the year under report, I was on leave from 24th March to 12th May 1910. For the rest of the period, I toured in all the Districts and inspected the Registers of nine Range offices, 14 taluk offices, 1 sub-range office and 12 Bonded Depots. The notes of inspection were duly communicated to the officers concerned.

concerned. Besides I inspected the Distillery 24 times and the Ganja plantations at Golahalli and Dudkurugod; and the date plantations in the Kolar and Bangalore Districts frequently.

Chapter VIII. Financial results.

Demand, Collection and balance of Excise Revenue.

98. The gross demand for the year amounted to R$.4720040-4-9 against R$.4853631-4-0 and the gross collections to R$.4515444-9-8 against R$.4622442-9-1 in the previous year, the percentage of collec-tion being 95.6 against 95.2. Appendices F and F/ give the figures for each District and appendix K gives the collection under each head of revenue. It will be seen from the marginally noted figures that the gross demand for the year ranks next to that of 1908-09, since the introduction of the tree-tax system.

1909-10.	R$.47,20,040.
1908-09.	" 48,53,631.
1907-08.	" 46,79,393.
1906-07.	" 45,13,660.
1905-06.	" 43,05,830.
1904-05.	" 42,88,044.
1903-04.	" 41,24,379.
1902-03.	" 38,74,118.
1901-02.	" 35,66,453.
1900-01.	" 37,36,887.

99. **Arrears.** The total arrear demand including tree-rent at the beginning of the year was R$.2,20,761 of which R$.29,671-12-7 were collected and R$.20,030-1-2 were remitted leaving a balance of R$.1,71,059-9-1 at the close of the year. The percentage of this collection was highest in the Kolar and Hassan Districts, where it amounted to 32.1, and lowest in the Shimoga District being 10.2.

Current Demand.

100. The total current demand for the year -- amounted

amounted to Rs.44,99,278-13-11 against - - - -

Rs.46,06,703-1-6 showing a decrease of Rs.107424-3-7

or 2.3. per cent chiefly under arrack duty

and tree-tax. The demand under the several heads

(omitting fractions of a rupee) are given below:-

Major Heads.	Minor Heads.	1908-09.	1909-1910.
Arrack.	Still-head duty.	19,40,447	18,52,860
	Shop-rental.	3,54,140	3,64,133
Country Beer ..	Duty.	701	670
	License fees.	1,718	1,939
Akkibhoja	License fees.	3,785	3,983
Foreign Liquor..	License fees.	12,851	14,352
Toddy. Date ..	Shop-rental.	13,80,460	13,83,610
	Tree-tax.	6,34,018	5,91,704
Bagani.	Shop-rental.	35,251	35,037
	Tree-tax.	33,336	32,631
Tree-rent	Tree-rent.	77,836	77,313
Ganja and Majum duty.	Duty and price.	55,098	63,998
	License fees.	21,653	23,649
Opium.	License fees.	9,378	8,579
	Gain on sale proceeds.	34,635	31,572
Miscellaneous ..	... ...	8,204	9,451
Proportionate share of the cost of the Central Distillery establishment charges recovered from the Civil and Military Station, Bangalore.	... ...	3,191	3,796
	T o t a l .	46,06,702	44,99,277

Causes for variation on several heads.

101. The decrease under arrack duty and tree--tax is due to the fall in the consumption of arrack and in the number of trees tapped. The increase in the rentals of arrack and toddy shops is the result of keen competition while that -- under Ganja is due to larger consumption consequent on the better quality of the drug supplied. The increase under Foreign Liquors is due to the sale of Refreshment Rooms in the Bowringpet -- Taluk instead of licensing them out on a fixed fee. The variations under other items being -- small call for no remarks.

Proportion of fixed to variable portion of the revenue under country spirits and toddy.

102. 83.5 per cent of the revenue from country spirits was derived from Excise duty and 16.5 per cent from rentals, against 85 per cent under the former and 15 per cent under the latter in 1908-1909, while the proportion of toddy rentals and tree-tax to the total toddy revenue was 69.5 and 30.5 against 68.0 and 32.0 respectively in the previous year. 40.7 per cent of the total -- Excise revenue for the year was derived from the sale of the various priviliges while it was 39 per cent in the last year.

103.

Collections.

103. The total collections under current demand amounted to Rs.44,78,785-15-0 against Rs.45,87,849-2-3 in the previous year, with a balance of Rs.16,697-1-6, excluding Rs.3795-13-5 pending adjustment by the Residency. This gives a percentage of 99.7 against 99.5. Thus there has been some improvement in this direction in the year under report. The Districtwar percentage of collection is noted below: -

Mysore.	99.96
Shimoga.	99.88
Bangalore.	99.77
Hassan.	99.68
Kolar.	99.62
Chitaldrug.	99.45
Tumkur.	98.99
Kadur.	98.82

The collection work was on the whole very satisfactory.

104. Four Taluks in the Bangalore District, 5 in Kolar, 3 in Tumkur, 12 in Mysore, 1 in Hassan, 4 in Shimoga and 4 in Chitaldrug show a clean balance sheet in respect of the current demand, while 2 in Bangalore, 2 in Kolar 2 in Tumkur, 1 in

in Chitaldrug and 1 in Shimoga show a similar clean balance in respect of gross demand. Classi-fying the Taluks in the order of those showing arrears of upwards of R^s.12,000/- R^s.5,000/- --- R^s.1,000/- and less than R^s.1,000/- it is found that 6 Taluks come under the first head 5 under the second while 25 and 25 fall under the third and the fourth heads respectively as detailed in Appendix F.2 . It is hoped that the several Deputy Commissioners will give their early atten-tion to reduce these heavy arrears.

Net receipts.

105. Excluding out of the gross collections, the local cess on certain items to the extent of R^s.2,01,048-14-4 credited to local funds and a further sum of R^s. 8,165-2-0 credited to other departments on account of tree-rent on toddy - - trees standing in the lands belonging to the -- respective departments, the net revenue credited to Excise amounted to R^s.43,06,230-9-4 against R^s.43,72,807 in 1908-09.

Expenditure.

106. The total expenditure under all heads ---- amounted to R^s.3,20,754-0-5 against R^s.3,39,847/- 3,36804 or

or R$.19,092-15-7 less than in the previous year. The decrease was chiefly under remuneration to Carrying Contractors and allowances. The total cost of the establishment including officers of the Excise Department, calculated on the total gross receipts was 5.7 against 5.6 per cent, while the percentage of total expenditure under all -- charges amounted to 7.0 against 7.4 per cent.

General incidence of taxation.

107. The incidence per head of population on the total Excise gross receipts was R$.0-13-2.6 against R$.0-13-5.5 in the previous year.

108. All the Deputy Commissioners have again urged the necessity of strengthening their office establishment and if the proposal now -- before Government is sanctioned the efficiency that would be created thereby is sure to re-pay the small out-lay.

109. Comparing the percentage of probable cost of collecting the gross revenue of this Departmen with that of others as noted in the current year Budget I beg to lay stress on the figures noted in the margin and to state that in the interest

Land Revenue.	19.41 %
Forest includ -ing Sandalwood.	40.432%
Do. excluding.	77.764%
Excise. ...	8.395%
Stamps. ...	4.568%
Registration.	56.666%

of

of the general efficiency the executive service of the Department requires a thorough revision along with the clerical establishment of the -- Excise Commissioner's Office.

Departmental Training.

110. One of the most important events of the year was the starting of a class to train up the subordinates in the practical work of the Depart -ment. Officers were called in by turns and the period was limited for each session to about 3 months. The subjects taught were classified under the following three general headings:-

1. Distillery Course.
2. Excise Regulation, Opium and Methy--lated Spirits Acts and Rules and Departmental Circulars.
3. Criminal Law comprising the Indian -- Evidence Act in full, the general principles of the Indian Penal Code including those portions of the Procedure as relate to the compelling the -- attendance of witnesses, arrests, search and seizure and investigation and conduct of summons' cases.
4. Practical lessons at the Distillery and at the Bonded Depot.

Officers who had already passed the Criminal Test of the Mysore Local Service exam--ination were exempted from the Criminal Law -- Course.

The following table gives the results achieved in the school in each session:-

Session.	Number in class.	No. passed including failures of the previous session.		
		Alcoholo-metry.	Excise Laws.	Criminal Law.
1st Session from 2nd August to 1st November 1909.	27	21	17	17
2nd Session from 1st November 1909 to 31st January 1910.	33	27	36	26
3rd Session from 7th February to 4th April 1910.	27	20	26	27

There can be no doubt that the training of these Officers has had an excellent effect upon the Department generally.

Mr. B. Shamanna, Assistant Commissioner, was in charge of the class and the instructions were given by Inspector N. Krishnaiyengar, B.A.

Notice of Officers.

111. Of the Officers who have served for some-times in the Department I have received the greatest help in every respect and they have worked with zeal and energy throughout and I would

would specially bring the names of Messrs Shamani Sitharamiah, Ranga Rao and Abdulla Sherieff to the notice of Government. It is hoped that Mr. Narainswamy Mudaliar will be allowed to remain in the Department as he shows great interest and being formerly in the Department is cognisant of the working. This being a technical Department requires a certain amount of knowledge and I cannot condemn too strongly the continual changes of officers.

Conclusion.

112. In conclusion I would respectfully beg to bring to the notice of Government that the present high revenue cannot be expected to continue if the Department is starved in the present way. Funds are lavishly allowed to other Departments to construct buildings for their offices etc., and for their general improvement; but whenever funds are asked for improving the Excise Department in any way, the invariable reply is no funds available. The more urgent requirements are the organization of a Detective Staff, the erection of buildings and the strengthening of

the

the office staff. The office establishment has worked most satisfactorily throughout the year and the Head Accountant Tirunarnaiyengar has done exceptionally good work and shows special aptitude for Excise matters. He was relieved in May by N. Krishnaiyengar who works most diligentl and shows great promise.

I have the honor to be,

Sir,

Your most obedient servant,

for Excise Commissioner.

Proceedings of the Govt. of H.H. the

Maharaja of Mysore

Read-

The report on the Administration of the Excise Department for the year 1909-10 received with the Excise Commissioner's letter No. 3022 dated the 29th September 1910.

Order thereon No:- 70 4507-16
S&US-M-2

Dated Bangalore, the 25 January 1911.

During the year under review ~~was marked by~~ an important measure of reform was decided upon in the reduction ~~in the interests of temperance. The arrack~~ manufactured in the Central Distillery, Bangalore, was sold in the State at a strength of 20° U.P. In British India, particularly in the Presidency of Madras, the strength of the liquor sold was reduced to 30° U.P. on the recommendation of the Indian Excise Commission. After a due consideration of the question, Government decided that, in the interests of the health of the consumers a reduction in the strength of the arrack sold in the State was desirable and accordingly directed that,

the strength of liquor sold from 20° UP to 25° UP with effect from the 1st July 1910.

the Several provinces

~~that, with effect from the 1st July 1910,~~ ~~only arrack of 25° U.P. should be sold to the public. In order to maintain the revenue from the duty at the same level as before,~~ the still head duty payable on spirit was raised from Rs. ~~5~~ 5-15-0 to Rs. 6-5-4 per gallon proof. It is not easy to forecast what effect the change may have, ~~this~~, on consumption and ~~secondly~~, on the revenue. ~~Even though the change might lead to a small fall in the revenue derived from arrack~~, it was considered that the reduction in the strength was ~~worthy of adoption in the interests of the drinking population~~.

That the effect of this change might not be counteracted it was decided that there should be no proportionate reduction in the duty leviable and accordingly

At the same time

But it Consequently a step in the right direction.

5. Another important change effected during the year ~~with the same object in view~~ was the prohibition of liquor shops during fairs or jatras within a ~~distance~~ radius of one mile from the place of jatra

4. The policy of reducing as far as possible the number of shops in the State ~~in which~~ for the sale of intoxicating drinks and drugs ~~are sold~~ was continued during the year, the total reduction in number thus effected ~~number of shops thus reduced~~ being

209.

5. ~~The year was marked by~~ Other minor administrative changes were also carried out, of which the following are the most important :-

(a) The provisions of the Excise Regulation were extended to Eucaine and allied drugs.

(b) The powers of sanctioning remissions and refunds within certain limits was delegated to the Excise Commissioner by the Government; and the powers of confiscation hitherto exercised by the Excise Commissioner were delegated to the Deputy Commissioners and ~~&&&~~ District Excise Officers.

(c) The rules regarding tree tapping licenses in respect of Bagani trees were simplified so as to facilitate the speedy marking of these trees in the Malnad;

(d) The issue price of Ganja was raised, ordered by the from Re. 1/- to Rs. 1-4-0 per seer of 80 tolas with effect from the 1st July 1910.

6. <u>Comsumption of arrack</u>.

The consumption of arrack during the year amounted to 3,83,319 gallons against 4,02,947 gallons in the previous year. The decrease of nearly 20,000 gallons ~~is~~ was distributed over

over all the Districts except Hassan, which showed a small increase. Various reasons have been ascribed for this decrease; but it ~~is~~ was probably due to purely local or temporary causes such as the closing of certain works by the Public Works Department in the Kolar District and the abolition of the Transport Mule Staff stationed at Hunsur. The increase in popularity of the special liquors manufactured at the Central Distillery, Bangalore, is ~~also~~ said to have affected the consumption of arrack in the districts of Kadur and Shimoga. The consumption of these special liquors has nearly doubled during the year under report; and it is stated that they are replacing to a certain extent the cheap foreign liquors that are imported into the State.

7. The year's report again discloses the fact that the ~~&&&&&&&&&&&&~~ increased rentals as compared with the consumption of arrack and the duty realised thereon ~~leave~~ do not leave an adequate ~~little or no~~ margin for the legitimate profit of the ~~renters~~ Vendors. The high prices are doubtless

Vide Statement K also para 41 last year's review

doubtless the result of keen competition among the bidders. ~~Nevertheless~~ they lead to malpractices such as dilution and short measuring ~~on the part of the vendors~~, and sustained vigilance on the part of the departmental staff ~~can alone prevent~~ these ~~consequences.~~

8. Toddy. The number of ~~toddy~~ trees tapped was 4,39,536 against 4,74,056 in the previous year. The decrease ~~is~~ observed in all the Districts of the State except in Kadur which shows a small increase. It is not clear whether this fall in the number of trees taken up for tapping indicates any decrease in the consumption of toddy during the year, as the larger number of trees tapped during the preceding year was no doubt due to the diminished yield of the trees on account of the drought that then prevailed. The ~~xxxxx~~ rentals realised from the sale of toddy shops show however an increase of Rs. 3,149-13-4 which is attributed by the Excise Commissioner to the reservation of upset prices in respect of the shops that were sold for a term of two

two or three years.

9. Bagani toddy. The number of trees tapped in the Bagani area also fell ~~showed a decrease~~ from 16,449 to 16,086; and the rentals fetched Rs. 35,037-6-0 against Rs. 35,251-4-11 in the previous year. ~~No less than~~ As many as 109 bagani shops were abolished reducing the total number of bagani shops in the three malnad districts of Kadur, Hassan and Shimoga from 828 to 719. ~~The number is said to be capable of still further reduction, and~~ It is understood that many of the shops that were abolished ~~which~~ fetched very small rents and their abolition is not likely to cause inconvenience to the drinking classes or to lead to ~~+~~ illicit tapping.

10. G a n j a. The cultivation of ganja locally whether by direct departmental agency or ~~through~~ through ryots with seed obtained from Khandwa in the Central Provinces has not so far proved a success, and the Excise Commissioner has since recommended that for the present it is best for the State to continue to get its supply

This is in a private D.O. to the Dr.

supply of the drug from the storehouses in British India.

11. Financial Results.

The year brought in a total excise revenue of Rs. 44,78,786/- against Rs. 45,87,849/- in the previous year. The decrease is accounted for by the fact that the conditions of 1908-09 were exceptional. The collection made amounted to 99.7% of the current demand and is ~~highly~~ satisfactory.

12. The Excise Training School.

The ~~institution of an~~ Excise Training School which was sanctioned in 1908-09 commenced work during the year. 87 ~~subordinates of the Excise Executive staff~~ officers received training in the school, ~~and it is hoped that~~ the whole of the subordinate executive staf will be able to go through a course before the period fixed for the school expires.

(Inspectors & Asst. Inspectors)

13. Offences. The occurrence of 71 cases of illicit cultivation of the hemp plant as against 26 in the preceding year calls for ~~special~~ attention, and there

is reason to believe that a considerable quantity of ganja is also being smuggled into the State from across the British frontier. It is necessary that the department should bestow special attention to this branch of preventative work.

14. In conclusion, Government are glad to be able to record their high appreciation of the efficient manner in which Mr. Sparkes and the Deputy Commrs of Distts conducted the affairs of the department during the year.

Offg. Secretary to Govt.

To

The Excise Commissioner in Mysore.

The Comptroller to Government.

The Deputy Commissioners of Districts.

REPORT

ON THE

ADMINISTRATION

OF

EXCISE REVENUE

IN THE

MYSORE STATE

DURING THE YEAR 1909-10

WITH THE GOVERNMENT REVIEW THEREON

BANGALORE:
PRINTED AT THE GOVERNMENT PRESS
1911

READ—

The Report on the Administration of the Excise Department for the year 1909-10, received with the Excise Commissioner's letter No. 3022, dated the 29th September 1910.

No. FL. 4507-16—S. R. 48-10-2, DATED BANGALORE, 25TH FEBRUARY 1911.

ORDER THEREON.—During the year under review an important measure of reform was decided upon, *viz.*, the reduction of the strength of liquor sold from 20° U. P. to 25° U. P. with effect from the 1st July 1910. At the same time the still head duty payable on proof spirit was raised from Rs. 5-15-0 to Rs. 6-5-4 per gallon. It is not easy to forecast what effect the change may have on consumption and consequently on the revenue. But it was considered that the reduction in the strength was a step in the right direction.

2. Another important change effected during the year was the prohibition of liquor shops during fairs or *jatras* within a radius of one mile from the place of *Jatra*.

3. The policy of reducing, as far as possible, the number of shops in the State for the sale of intoxicating drinks and drugs was continued during the year, the total reduction in number thus effected being 209.

4. Other minor administrative changes were also carried out, of which the following are the most important:—

(*a*) The provisions of the Excise Regulation were extended to Eucaine and allied drugs.

(*b*) The powers of sanctioning remissions and refunds within certain limits was delegated to the Excise Commissioner by the Government; and the powers of confiscation hitherto exercised by the Excise Commissioner were delegated to the Deputy Commissioners and District Excise Officers.

(*c*) The rules regarding tree tapping licenses in respect of Bagani trees were simplified so as to facilitate the speedy marking of these trees in the malnad.

(*d*) The issue price of ganja was ordered to be raised from Re. 1 to Rs. 1-4-0 per seer of 80 tolas with effect from the 1st July 1910.

5. *Consumption of arrack.*—The consumption of arrack during the year amounted to 3,83,319 gallons against 4,02,947 gallons in the previous year. The decrease of nearly 20,000 gallons was distributed over all the districts, except Hassan, which showed a small increase. Various reasons have been ascribed for this decrease; but it was probably due to purely local or temporary causes such as the closing of works by the Public Works Department in the Kolar District and the abolition of the Transport of the Mule staff stationed at Hunsur. The increase in popularity of the special liquors manufactured at the Central Distillery, Bangalore, is said to have affected the consumption of arrack in the districts of Kadur and Shimoga. The consumption of these special liquors has nearly doubled during the year under report; and it is stated that they are replacing to a certain extent the chief Foreign Liquors that are imported into the State.

6. The year's report again discloses the fact that the increased rentals as compared with the consumption of arrack and the duty realised thereon do not seem to leave an adequate margin for the legitimate profit of the vendors. The high prices are doubtless the result of keen competition among the bidders. But it is to be feared that this state of things constitutes a great temptation to malpractices, such as dilution and short measurement and requires sustained vigilance on the part of the departmental staff for their prevention.

7. *Toddy.*—The number of Toddy, Date and Cocoanut trees tapped was 439,536 against 474,056 in the previous year. The decrease was observed in all the districts of the State, except in Kadur which shows a small increase. It is not clear whether this fall in the number of trees taken up for tapping indicates any decrease in the consumption of toddy during the year, as the larger number of trees tapped during the preceding year was no doubt due to the diminished

yield of the trees on account of the drought that then prevailed. The rentals realised from the sale of toddy shops showed however an increase of Rs. 3,149-13-4 which is attributed by the Excise Commissioner to the reservation of upset prices in respect of the shops that were sold for a term of two or three years.

8. *Bagani Toddy.*—The number of trees tapped in the Bagani area also fell from 16,449 to 16,086, and the rentals fetched Rs. 35,037-6-0 against Rs. 35,251-4-11 in the previous year. As many as 109 Bagani shops were abolished reducing the total number of Bagani shops in the three malnad districts of Kadur, Hassan and Shimoga from 828 to 719. It is understood that many of the shops that were abolished fetched very small rents and their abolition is not likely to cause inconvenience to the drinking classes or to lead to illicit tapping.

9. *Ganja.*—The cultivation of ganja locally whether by direct departmental agency or through raiyats with seed obtained from Khandwa in the Central Provinces has not so far proved a success, and the Excise Commissioner has since recommended that for the present it is best for the State to continue to get its supply of the drug from the Store Houses in British India.

10. *Financial results.*—The year brought in a total Excise revenue of Rs. 44,78,786 against Rs. 45,87,849 in the previous year. The decrease is accounted for by the fact that the conditions of 1908-09 were exceptional. The collection made amounted to 99·7 per cent of the current demand and is satisfactory.

11. *The Excise Training School.*—The Excise Training School which was sanctioned in 1908-09 commenced to work during the year. 87 officers (Inspectors and Assistant Deputy Inspectors) received training in the school.

12. *Offences.*—The occurrence of 71 cases of illicit cultivation of the hemp plant as against 26 in the preceding year calls for attention and there is reason to believe that a considerable quantity of ganja is also being smuggled into the State from across the British frontier. It is necessary that the department should bestow special attention to this branch of preventative work.

13. In conclusion, Government are glad to be able to record their high appreciation of the efficient manner in which Mr. Sparkes and the Deputy Commissioners of Districts have conducted the affairs of the department during the year.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Excise Commissioner in Mysore.
The Comptroller, Mysore Government.
The Deputy Commissioners of Districts.

Exd.—C. R.

No. 3022—Enc. 1 file. Office of the Excise Commissioner in Mysore,

Dated Bangalore, 29—30th September 1910.

From

H. H. SPARKES, Esq.,

Excise Commissioner in Mysore.

To

C. S. BALASUNDARAM IYER, Esq., B.A.,

Officiating Secretary to the Government of

His Highness the Maharaja of Mysore,

General and Revenue Departments.

Sir,

I have the honor to submit my report on the Administration of the Excise Department of the State for the year 1909-10. The usual statistical statements are appended.

CHAPTER I.—Introductory.

2. *Personnel of the Department.*—I continued to hold charge of the Department during the year except for the period from 24th March to May 1910, when I was on privilege leave. Mr. M. Narain Rao, Deputy Commissioner, Shimoga, acted for me then.

3. Mr. B. Shamanna continued as Office Assistant throughout the year. Mr. A. K. Syed Taj Peeran was transferred to the Revenue Department and his place as District Excise Officer, Kolar, was taken up by Mr. Zahiruddin Mecci, from the Police Department on the forenoon of the 2nd June 1910, only. In January 1910 Mr. Mohamed Abdulla Sheriff was transferred from Kadur to Chitaldrug, while Mr. Hassan Ali, who succeeded him there having gone away on leave shortly after, Mr. C. V. Krishnaswamy Rao was appointed District Excise Officer, and was posted to Kadur in April 1910. During the interval, Messrs. M. Krishnaswamy Iyengar and S. Chakrapaniengar, Treasury Assistant Commissioner, held charge of the Kadur District Excise Office for broken periods of a fortnight and a month. Mr. M. Ranga Rao who continued to be in charge of the Hassan District Excise Office till May 1910, was sent to Mysore, on special duty in connection with the marriage of His Highness the Yuvaraj and in his place Mr. C. R. Narainsawmy Mudaliar was appointed District Excise Officer. There were no other changes in the personnel or charge of the District Excise Officers except that Messrs. B. Bheema Rao and C. Krishnama Naidu were on short leave during the year.

4. *Excise Ranges.*—As an experimental measure, Mysore City was constituted into a range by the abolition of Yedatore as a separate charge, which was added on to the Mysore Taluk. Such a step seemed necessary to prevent and detect cases of smuggling of ganja from the surrounding British Territories. The effect of a full-time officer in charge of the City alone, is not without its consequences. In former times a Preventive Inspector, with a staff of one Sub-Inspector and two peons, was stationed in the City for preventive work only. Since the abolition of this staff, the City had only a partial attention and in consequence there were

great opportunities for the smuggling of ganja, especially. The present arrangement has checked this to a certain extent. Besides this, there were no changes in the Excise Ranges, forty-three of which were in charge of Inspectors, while the remaining six in charge of Probationary Inspectors.

5. *Important changes.*—The principal changes in the Excise Administration during the year under report were as follows :—

(*1*) *Country spirits.*

(*a*) One of the two jaggory arrack check shops in the Kolar Gold Fields was allowed to sell bottled molasses arrack only.

(*b*) The strength of arrack was reduced from 20 U.P. to 25 U.P. to come into effect from 1st July 1910.

(*c*) The Arrack Rules were amended in consequence.

(*d*) The Methylated Spirit Rules were amended.

(*2*) *Foreign liquors.*

(*e*) Rule X of the Foreign Liquor Rules was amended so as to include brands weaker than 15 U. P. strength in the ordinary license with the sanction of Government.

(*f*) Sanction was obtained to sell by public auction the English draught Beer Tavern in the Kolar Gold Fields, which was hitherto being licensed out on a fixed fee.

(*3*) *Beer.*

(*g*) The Country Beer Taverns in the Bowringpet Taluk were permitted to be sold by public auction with an upset price of Rs. 250 per mensem instead of on the hogshead-fee system, from 1st July 1910.

(*4*) *Toddy.*

(*h*) Arrangements were made to dispose of the toddy shops in certain taluks on a two years' lease to compare the results simultaneously with the taluks sold on a three-year lease during the last year.

(*i*) Certain facilities were created to the renters in bagani areas for the speedy marking of trees.

(*j*) A new tree-tax register was prescribed to show at a glance the demand, collection and balance of tree-tax.

(*5*) *Intoxicating drugs.*

(*k*) Experimental farms (ganja) to cultivate ganja by Amani were opened at Gollahalli and Dodkurgod.

(*l*) Retail price of ganja was ordered to be raised from Re. 1 to Rs. 1-4-0 per seer of 80 tolas from 1st July 1910.

(*m*) Arrangements were made and ganja was imported duty free from the Kanyambadi Store-house of the Madras Presidency and the Khandwa Store-house of the Central Provinces.

Eucaine, Beta-Eucaine, Beta-Eucaine Lactate and Holocaine.

(*n*) The possession, sale and transport of the above drugs were brought under the purview of the Excise Regulation.

(*o*) The sale except under a license of medicated articles was prohibited under Section 71 of the Excise Regulation.

(*6*) *Opium.*

(*p*) The minimum quantity that could be allowed to be purchased at a time was fixed at 20 tolas instead of 24 tolas.

(*7*) *General.*

(*q*) Certain powers of Government under Section 4 (*g*) of the Excise Regulation were delegated to the Excise Commissioner.

(*r*) Powers of Government to sanction remissions and refunds were delegated within certain limits to the Excise Commissioner.

(*s*) For the speedy preparation of refund bills of Inamdars entitled to the toddy revenue of their villages in the Mysore District, a temporary clerical establishment was sanctioned.

(*t*) To look after the Amani ganja cultivation, the establishment of a ganja Overseer and 4 peons was sanctioned.

(*u*) Security deposits were reduced to two months' rental irrespective of the period of the lease.

(*v*) The notification for the sale of excise and opium privileges for 1910-11 was modified in regard to the grant of licenses under para 4 of condition XIX in the matter of arrack and toddy shops being prohibited to be opened in jatras and that where permitted such shops were ordered to be located at a distance of not less than a mile from the jatra site.

(*w*) An amalgamated Day Book for all Excise collections and a license register were prescribed for use in Taluk Offices.

(*x*) The temporary Patrol Staff sanctioned for the Kolar Gold Fields was continued.

(*y*) The levy of a duty of Rs. 4-12-0 on a gallon of 25° U. P. from 1st July 1910, and proportionately for higher or lower strengths was legalized.

(*z*) The manufacturers of arrack were directed to get bottles of uniform size from England and consequently they were given enhanced bottling charges.

(*z*^{1}) Certain powers of confiscation of the Excise Commissioner were delegated to the Deputy Commissioners and District Excise Officers.

CHAPTER II.—COUNTRY SPIRITS.

6. *Distillery buildings*.—The following important improvements were made to the Distillery buildings during the year:—

(*a*) A verandah was added on to the Spirit Warehouse at a cost of Rs. 1,688-11-10 to give shelter to the casks from sun and rain.

(*b*) Glass tiles were fixed to the roof of the Warehouse to allow greater light.

(*c*) A new wash-room was built to accommodate 12 wash-backs of capacity of 17,500 gallons.

(*d*) The northern portion of the compound wall having come down on account of the heavy rains, was rebuilt more substantially.

(*e*) To prevent fraud from the Still-platform, a small door which could be locked and sealed was fixed on the topmost step leading thereto.

Besides the annual repairs, such as repairing the Cooper's shed and the Guard-room and replacing broken tiles, the following works are being taken up:—

(1) Raising the floor of the Receiver Room on to the ground level and the consequent heightening of its roof.

(2) Altering the floor of the old wash-room.

(3) Repairing the present cultivation room.

7. Government sanction having been received to connect the telephonic communication with the Distillery, with the Central Exchange, arrangements are being made to carry out the same, to avoid the continual inconvenience, by the line getting out of order frequently.

8. *Distillery water-supply*.—During the year, pipe communication from the Hesarghatta tank was extended to the Distillery, and from 1st July 1910, the reduction of the spirit was arranged to be made with this water in lieu of distilled water.

9. *Coffey still*.—A second Coffey still was installed to minimize night distillation and to maintain sufficient stock.

10. *Visitors*.—His Highness the Maharaja of Mysore accompanied by Mr. R. H. Campbell, I.C.S., Private-Secretary, visited the Distillery in the month of March 1910. The Dewan with Mr. Govinda Rao, Private-Secretary, paid a visit on the 8th February 1910. The following State Officers also visited the Distillery during the year under report:—

1. Mr. K P. Puttanna Chetty, 1st Councillor.
2. „ A. Rangaswami Iyengar, Revenue Commissioner.
3. Dr. Smeeth, State Geologist.
4. Mr. H. D. Rice, Executive Engineer, Bangalore Division.
5. Mr. K. Krishna Iyengar, Personal Assistant to the Chief Engineer.

11. *Attenuation register.*—As the wash-backs could not be spared for gauging, the introduction of this register could not be enforced. Arrangements will, however, be made to get a few extra backs and gauge all of them by turns and on completion, the register will be maintained. In the meantime the account of attenuation of wash now recorded by the distillers serves as a guide for all calculations.

12. *Privilege of manufacture.*—The manufacturing contract of Messrs. A. Narainswamy Mudaliar & Co. and Bajjanna ran through its final year. The same firm has, however, been allowed to continue their contract for another period of three years on altered conditions.

13. *Supply to Coorg.*—The manufacturing contractors were allowed to manufacture in the Central Distillery the necessary supply of arrack for Coorg and to export the same free of duty subject to the same conditions as in the past year.

14. *Manufacture.*—The quantity of arrack manufactured amounted to 491,601 gallons and 27 drams which added to the opening balance of 14,593 gallons and 11 drams on hand at the beginning of the year gave a total stock of 506,194 gallons and 38 drams. Deducting wastage to the extent of 7,685 gallons and 37 drams and a quantity of 617 gallons and 22 drams taken for methylation, the net stock was 497,883 gallons and 30 drams. Of this, 487,381 gallons and 6 drams were issued from the Distillery, leaving a balance of 10,507 gallons and 24 drams or 11,901 gallons and 20 drams in terms of 29 U. P. or 12,694 gallons and 30 drams in terms of 25 U. P.

15. *Issues to the Civil and Military Station and Coorg.*—77,666 gallons 38 drams of ordinary arrack, 110 gallons of Rectified spirit, 3,465 gallons of Rum and 74 gallons of methylated spirit were issued to the Civil and Military Station against 74,467 gallons and 22 drams, 58 gallons, 4,536 gallons and 589 gallons, respectively, in the previous year. The issues to Coorg amounted to 15,398 gallons and 23 drams of Over-Proof spirit against 17,262 gallons and 41 drams in the previous year.

16. *Issues to the State.*—The issues from the Central Distillery to the Bonded Depots under bond to licensees on prepayment of duty and to Government and charitable Institutions free of duty amounted to 389,275 gallons and 16 drams as detailed hereunder :—

	Gallons	Drams
Molasses arrack	383,981	11
Jaggory arrack	1,728	8
Proof-Spirit	120	...
Special Liquors	2,380	22
Rectified spirit	516	..
Methylated spirit..	549	26

17. *Methylated spirit.*—Six hundred and twenty-three gallons and 26 drams were manufactured and issued from the Distillery against 1,087 gallons and 25½ drams in the previous year. To the Civil and Military Station only 74 gallons were supplied during the year under report, while 589 gallons were supplied in the previous year. This accounts for the fall in the issues of this spirit from the Distillery and the fall in the Civil and Military Station is due to more licenses being issued throughout the State. The issue for local consumption was 549 gallons and 26 drams against 498 gallons and 26 drams showing an increase of 51 gallons. The number of licenses issued for the sale of this spirit was 16 against 11 of the previous year and the quantity sold was 421 gallons and 25½ drams against 334 gallons and 42½ drams.

18. *Issues free of duty.*—The details of issues of Rectified spirit and Methylated spirit free of duty to Government and charitable Institutions were as follows :—

	Rectified spirit	Methylated spirit
Superintendent, Medical Stores	390 gallons	90 gallons
Medical Officer, Victoria Hospital ...	...	24 do
Agricultural Chemist	28 gallons	...
St. Martha's Hospital	24 gallons	...
State Geologist	...	4 gallons
Total ...	442 gallons	118 gallons

19. *Adequacy of supply.*—On a few occasions the stock maintained in the Distillery fell short of the minimum quantity prescribed, through unforseen circumstances, but no practical inconvenience was felt on this account.

20. *Quality of spirit.*—The use of solidified Java molasses in the manufacture of spirit has not given rise to any complaints as to its quality.

21. *Transport of arrack.*—Messrs. Bajjanna and Maigondadeva Mudaliar continued to be the carrying contractors throughout the year. The quantity of arrack and other country spirits transported by them amounted to 388,639 gallons and 47 drams, of which 77,599 gallons and 38 drams were to the Bangalore City Depot and the balance to the outlying depots. The remuneration payable on account of the quantity of spirit transported amounted to Rs. 55,480-12-11 as detailed in Appendix B. The wastage both bung and stand on the quantity of arrack transported to moffusil depots was 4,049 gallons and 30½ drams or a percentage of 1·3.

22 The construction of Bonded Depots was not taken up during the year under report as no funds were provided therefor. For the year 1910-11, a sum of Rs. 25,000 has been promised and the Chief Engineer has been requested to construct buildings in more important places. The present system of allowing Government arrack to be stored in any hole and corner of the bazaar far away from the Taluk Cutcherry and in unsafe mud houses cannot be too strongly condemned. The carrying contract with the same firm has been extended to the year 1910-11 also. In this connection, the sudden death of Mr. Maigondadeva Mudaliar, one of the partners of the carrying agency, is noted with deep regret and in consequence arrangements are being made to change the name of the firm to Messrs. Bajjanna and A. Narainsawmy Mudaliar & Co.

23. *Advance to manufacturers.*—The particulars of the advance with the adjustment and the balance are shown in Appendix A. The outstanding balance includes the value in money of the stock of spirits in the several bonded depots on the morning of the 1st July 1910 and also the cost of proof liquor utilised for adjustment at Government cost.

24. *Bonded depots and issues therefrom.*—The number of bonded depots continued to be the same as in last year (*viz.*, 62 in taluk headquarters and 8 in outlying places). Out of the 70 depots now existing, one at Bowringpet, supplies only jaggery arrack and methylated spirits, the special liquors being indented for by the licensees direct from the Distillery.

25. The quantity of arrack issued from the bonded depots for public consumption amounted to 383,519 gallons and 2 drams which gives an incidence of 3·6 drams per head of population. In the Cities of Bangalore and Mysore the incidence was 32·0 and 25·8 respectively, while in the Kolar Gold Fields, it was as high as 78·6. Comparing with the previous year the incidence has decreased in the Bangalore and the Kolar Gold Fields, while it has remained the same in the Mysore City. The incidence for the whole State has, however, gone down by ·2.

26. *Number of shops.*—The number of arrack shops for the sale of country spirits was 824 or 35 less than in the previous year. The decrease occurred in all the districts except Mysore and Hassan. In addition to the 17 shops that were closed in the previous year in the Bangalore District, 12 more were closed in the year under report. In the Shimoga and Kadur Districts, however, as many as 9 and 7 shops were closed, while Kolar, Tumkur and Chitaldrug contributed to the closure of 3, 2 and 2 shops respectively. The sale of spirits at weekly fairs was prohibited and the jatra shops have been considerably reduced, as hawking of liquor at these gatherings is condemned. The legitimate demand for spirits is, however, kept in view in licensing and closing shops.

27. The particulars of transactions of all liquors in the several bonded depots are noted in Appendix J—1.

28. *Area and population per shop.*—During the year under report, there was one arrack shop for 36 square miles and 6·614 people. The details are noted in Appendix D. The Districts of Bangalore and Shimoga are the heaviest arrack-consuming centres and have one arrack shop for 15 and 25 square miles respectively, while in the District of Kolar, which is more important on account of the Gold Fields, there was one arrack shop for 18 square miles.

29. *Rentals.*—The rentals obtained from the sale by auction of the right of vending arrack in the retail shops, inclusive of the jatra shops, rose from Rs. 3,54,140-8-0 to Rs. 3,64,133-8-0 in the year under report. The net increase of Rs. 9,993 is noticeable in all the districts except Kolar and Tumkur and is attributed to keen competition.

30. *Consumption.*—The total consumption of arrrck amounted to 383,819 gallons and 2 drams against 402,947 gallons and 7½ drams. The net decrease of 19,628 gallons and 5½ drams is distributed througout the Districts except Hassan which shows a small increase of 626 gallons accounted for by the work of reconstruction of Krishnaraj anikat and to the improved seasonal conditions. While the Deputy Commissioner, Kolar District, explains the fall in consumption of 5,615 gallons and 34 drams to be due to the paucity of public or other larger works drawing in the professional and drinking classes of hard labourers, the Deputy Commissioner of Tumkur ascribes the fall of 1,536 gallons and 49 drams to the impoverished condition of the drinking class as the effect of adverse season of the previous year. The decrease in consumption in the Mysore District amounting to 1,218 gallons and 43 drams is explained by the Deputy Commissioner to be chiefly due to the abolition of Transport Mule staff in the Public Cattle Department at Hunsur and to general depression of industry. The closure of 9 arrack shops in Shimoga and the preference for jaggory arrack and special liquors are said to have contributed to the fall of 1,338 gallons and 7 drams in consumption in that district. The Deputy Commissioner of the Kadur District, which shows a fall of 630 gallons, explains it to be due to the larger consumption of special liquors and to the exodus of the population from affected parts who had come to Malnad in search of labour during the drought of the previous year. The small decrease of 63 gallons and 13 drams in the Chitaldrug District is attributed to the departure of large gangs of stone Waddars from those localities which contributed to the same.

31. The district of Bangalore records the highest fall, *viz.*, 9,851 gallons and 12½ drams. The Deputy Commissioner explains it to be due to the unfavorable season of the year and to the consequent high price of food grains, as also to some extent to the better supply of toddy in some parts. Although numerous and various reasons are ascribed by the several Deputy Commissioners for the decrease and increase in consumption, it is impossible to arrive at the true reason, but it may be generally noted that a bad revenue year, *i.e.*, a season when the rainfall is scanty, means a rise in the Excise Revenue, and which may be ascribed to the fact that when relief works are in progress the non-drinking public resort to drink to a certain extent to sustain themselves, of course, helped out by the Waddars and others gathered there for the purpose.

32. *Jaggory arrack.*—The consumption of sugarcane jaggory arrack fell from 2,650 gallons and 25½ drams to 1,812 gallons and 21¼ drams. The loss was general over the whole Province, being heaviest in the Kadur District to the extent of 461 gallons and 29¾ drams said to be due to a growing demand for special liquors. Next follows Kolar where there was a fall of 133 gallons and 8½ drams which is attributed to the inadequate supply of this liquor in pint bottles from the distillery. Out of the two shops that were licensed to sell this liquor in the Kolar Gold Fields in the previous year, one was utilized in the year under report for selling exclusively molasses arrack in sealed bottles to act as a check over the vendors in the ordinary retail shops having recourse to short measuring and other illicit practices. Hence the closing of this shop against the sale of jaggory arrack may have also affected the consumption. The manufacturers have, however, received subsequently a sufficient stock of quart and pint bottles ready to meet all demands. The district of Tumkur shows a slight increase of two gallons and 25½ drams, while the fall in the other districts is too small to require any explanation.

33. *Special liquors.*—The number of shops licensed to sell these liquors continued to be the same as in last year numbering 10 for the Province, and the quantity sold in these shops increased from 665 gallons and 47¼ drams to 1,017 gallons and 45½ drams. Adding to this the quantity sold in the foreign liquor shops of the Kolar Gold Fields and in the retail arrack shops specially permitted to sell such liquors, the total consuption during the year came to 4,231 gallons and 50½ drams against 2,188 gallons and 38 drams. The doubling of the consumption clearly demonstrates that these liquors are becoming popular. These liquors have, as reported in the last Administration Report, replaced to some extent the consumption of cheap foreign liquors as will be seen in para 58 infra.

34. The price of these sophisticated liquors is fixed by the manufacturer who, in competing with the cheap foreign brands, is compelled to keep it as low as possible and the consumption figures indicate that no prohibitive prices are fixed. As observed by Major Bedford in his " Alcoholic Liquors in India, " *the mark of*

respectability which impelled people to resort to imported brands is losing ground in this State. Taking from a revenue point of view, apart from the quality, the sale of these spirits which bring in duty to the State revenue is much to be preferred to the foreign imported brands which pay no duty whatever. As, however, the legitimate demand for European liquors has to be met, the sale of these is permitted under such restrictions as not to allow them to encroach upon the country liquor trade.

35. *Proof spirit.*—The expenditure of this spirit for adjusting purposes is controlled with the greatest economy. Bowringpet Bonded Depot, which consumed 968 gallons and 21 drams and 156 gallons and 19 drams in 1906-07 and 1907-08, respectively, shows no expenditure under this head during the year, owing to greater scrutiny on the part of the Excise Assistant Inspector deputed for duty at the Depot. The quantity taken up for adjustment during the year under report is 104 gallons and 47½ drams in all the Depots against 153 gallons and 22¼ drams. The quantity utilized in the Sorab, Chikmagalur, Saklespur and Yeslur Bonded Depots was rather heavy. The distance of these from the Central Distillery may partly account for it.

36. *Revenue per gallon of country spirit.*—The Revenue collected per gallon of country spirit is exhibited in the following statement:—

District	Quantity consumed		Amount of rental	Incidence of vend rents per gallon		Margin of profit
				1908-09	1909-10	
	Gls.	drs.	Rs. a p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Bangalore	1,21,666	45½	81,564 0 0	0 9 6	0 10 8	
Kolar	92,590	17	1,36,944 8 0	1 6 8	1 7 8	
Tumkur	10,365	2	10,329 8 0	0 14 8	0 15 10	
Mysore	53,092	8	33,394 0 0	0 8 4	0 10 1	0 15 1
Hassan	17,056	0	15,327 8 0	0 13 0	0 14 4	
Kadur	31,553	0	30,823 0 0	0 14 6	0 15 7	
Shimoga	48,402	18½	47,109 0 0	0 15 1	0 15 7	
Chitaldrug	8,593	13	8,642 0 0	0 15 2	1 0 1	
Total ...	3,83,319	2	3,64,133 8 0	0 14 1	0 15 2	...

The incidence of vend rental has exceeded the margin of profit in the Districts of Kolar, Shimoga, Chitaldrug, Kadur and Tumkur. This may tend to show that the licensees resort to malpractices to recoup themselves, in spite of the vigilance of the staff. There is nothing, however, unusual in this feature, owing to the peculiar characteristics of the population of these districts; these variations do defy all forecasts.

CHAPTER III.—Foreign liquors.

37. *Number of shops.*—The number of shops during the year was 25 against 26, one refreshment room on the Kolar Gold Fields being closed. The number of licenses issued fell from 61 to 50. The refreshment rooms on the Kolar Gold Fields were sold by auction during the year under report and fetched a price of Rs. 1,877. There was no change in the rest of the shops. Nine occasional licenses were issued during the year, 8 in the Bangalore District and one in the Mysore District. The fees amounted to Rs. 75.

38. *Consumption.*—The decrease in the consumption of foreign liquor from 42,921 gallons and 14 drams to 41,401 gallons and 30⅞ drs may be attributed to the twofold increase in the consumption of special liquors as noted above. It is interesting to note how soon the expectations on the successful working of the measures prescribed

were realized. It may, at this stage, be said that the danger apprehended in the encroachment of the foreign brands on the country liquor market has already begun to be averted. With a few more restrictions now under contemplation, there need be no fear at all.

39 *Revenue*.—Inclusive of the surcharge fees, the license fees amounted to Rs. 13,697 against Rs. 11,986 of the previous year. The increase is due to the sale by auction of the Refreshment room on the Kolar Gold Fields. Comparing the Revenue with the consumption of the previous year and of the year under report, the policy of the Department that increase in revenue should be followed by a decrease in consumption appears to have established itself with significance.

CHAPTER IV.—Toddy revenue.

Date toddy.

40. *Shops*.—The number of date toddy shops was reduced from 2,688 in the previous year to 2,636 in the year under report. The 52 shops that were closed were found to be superfluous. The existing shops average one shop for 2,067 persons and for 11·4 square miles.

41. *Rentals*.—The rentals fetched from the sale of date toddy shops amounted to Rs 13,83,510-6-4 against Rs. 13,80,460-9-0 resulting in an increase of Rs. 3,149-13-4. The Districts of Mysore, Hassan and Bangalore contributed to an increase of nearly Rs. 35,000, and it is attributed to keen competition while the other districts showed a loss of nearly Rs. 32,000, which is explained to be due to the losses sustained by the contractors on account of the adverse seasons of the past years. It is noticeable that the District of Mysore records the highest rise while that of Tumkur has the greatest fall. The percentage of rentals to total revenue was 69·5 against 67·9 of the previous year.

42. *Number of trees tapped*.—The number of trees tapped for local consumption was 4,35,618 date and 3,918 cocoanut against 4,69,955 date and 4,191 cocoanut of the previous year. These figures do not include 19,228 date and 500 cocoanut trees tapped in British Territory for Mysore shops against the corresponding number of 20,255 date and 552 cocoanut trees of the past year. The decrease is noticeable in all the districts except Kadur which has tapped a thousand trees more. This fall is ascribed to the impoverished condition of the drinking classes. It may also be due to the increase of last year, due to the paucity of yield from the trees on account of failure of rains and that in the year under report the trees have revived to some extent owing to change of seasonal conditions, the tree tests point to this latter fact. In the Bangalore District 54 palmyra trees were tapped in the year under report while for the Kolar District shops 10 trees were tapped locally and 80 in the British territory. This is a new departure so far as the Bangalore District is concerned and if found to answer, will be a source of profit hereafter as hitherto these trees have been standing idle.

43. *Government and private trees*.—The total number of trees tapped in Mysore both for local and British shops amounted to 4,72,733 trees of which 2,91,036 were Government trees standing on unoccupied lands and the rest were private trees. The licensees of the Mysore State tapped during the year under report as many as 1,67,600 trees in private lands and the remaining 14,097 were taken up by the British renters. The following table explains the above figures more clearly :—

	Government	Private	Total
For Mysore shops ...	2,88,086	1,67,600	4,55,686
For British shops ...	2,950	14,097	17,047
Total ...	2,91,036	1,81,697	4,72,733

Preference is generally given to tap private trees as the yield is higher owing to their generally standing in cultivated lands. The amount of tree-rent credited to Excise proper was Rs. 69,207-11-7 against Rs. 71,345-3-7 in 1908-09. Further details about tree-rent are noted in Appendix F-1.

44. The percentage of Government, private and British to the total number of trees stands as follows :—

	1909-10	1908-09
Government trees	61·2	58
Private	34·7	36
British	4·1	6

45. *Appendix G.-I.*—The percentage of tree-tax to the total toddy revenue fell from 32·0 to 30·5, while that of rental rose from 68·0 to 69·5. From a comparative study of the figures in this appendix, we find that the rental which was 66·41 in 1898-99 rose to 72·3 in 1902-03 at the end of the first quinquennium and showed a downward tendency in 1907-08 by coming down to 66·8 with the close of the second quinquennium. Then again it has begun to rise since 1908-09. The fluctuations have been gradual. The increase for the past two years may be ascribed to the fixing of the upset price of toddy shops on the average rental of the previous three years and extending the leases in some of the taluks to three years to obviate the inconvenience of the annual auction system. Ever since the introduction of the tree-tax system the tree-tax is oscillating between 33·6 and 26·4 per cent of the total toddy revenue. The results of two more years which close the third quinquennium may give us a more correct idea as to the necessity or otherwise of increasing this main factor of our revenue. In the meantime the experience of extended leases of toddy shops may also throw some light on the subject. I consider these figures most unsatisfactory as there can be no doubt that the legitimate Excise revenue so far as toddy is concerned should be derived from the taxing of the trees rather than the shop rental, as this latter means that the vendor either sells short measure or adulterates the toddy before sale and for this reason I am in favour of fixing the rentals.

46. *Trees tapped for the Madras Presidency*—The number of trees tapped in Mysore for the shops of the Madras Presidency amounted to 16,127 date and 920 cocoanut as against 19,118 date and 185 cocoanut in the previous year, while the Mysore licensees have taken up 19,228 date, 590 cocoanut and 80 palmyra as against 20,255 date and 552 cocoanut trees. Thus there has been an increase in the number of trees tapped outside for the State and a decrease in the number tapped in the State for outside shops. This intertapping, as was observed last year, is only due to the convenience of the renters concerned.

47. *Date plantation.*—In the Bangalore District the plantations in the Magadi and Devanhalli Taluks are reported to be in good condition. In the Mysore District attempts are being made to open new plantations in the Nagamangala and T.-Narsipur Taluks. The Deputy Commissioner, Kolar District, reports that the plants in the Dodkurugod, Hunsanahalli and Kanivekal plantations have attained their tappable condition, while those in Guttahalli are sufficiently mature to protect themselves from goat and cattle browsing. He also reports that Nonamangala and Kodikannur plantations are promising. I now propose to start a large number of date plantations of a workable area in the Goribidnur Taluk, which is the home of the date tree and from where toddy can easily be transported to Bangalore and the Kolar Gold Fields and other large centres.

48. Attempts are being made to open as many plantations as possible in the Goribidnur Taluk, which is the most suitable tract for date palms. Many taluks depend upon Goribidnur for their supply of toddy and this taluk is most convenient, being easily accessible from such places. Experiments to grow date groves will be tried in some of the treeless taluks of the Province, where the soil is adapted for the growth of palms to supplement the already overexhausted existing groves. Every precaution for the conservancy of date groves is, however, being taken.

49. It is also proposed to start date plantations in the neighbourhood of Anavatti in the Shikarpur and Sorab Taluks to supply the shops in those taluks. It is reported that there are a large number of date groves just across our border in the Kod Taluk, but no arrangement has yet been made with the Bombay Presidency to reciprocate in the same manner as in the Madras Presidency, probably because we cannot give a *quid pro quo*.

50. *Inamdars' claims to toddy revenue.*—During the year 34 cases involving 47 villages were settled. In respect of only two cases, the claims were recognized, while in the others, they were rejected. The former belong to the Mysore District. Further, the investigation in respect of 16 villages in Mysore, 16 villages in Tumkur and four in Kolar District is partly finished.

51. In 27 cases involving 37 Inam villages, refund bills amounting to Rs. 64,406-2-0 were submitted to Government during the year. Bills amounting to Rs. 22,190 11-0 of 18 villages have been sanctioned by Government.

52. The work done in this connection in the Mysore District is satisfactory. After final orders are passed by Government on the working of Rule 13, a larger number of claims will be settled.

Bagani toddy.

53. *Number of shops.*—During the year under report there were 719 shops for the vend of Bagani toddy as against 838 of 1908-09. The decrease of 119 shops is distributed to all the three malnad districts of Hassan, Kadur and Shimoga. In the first as many as 20 shops were closed, while in the second and the third 48 and 41 shops were not sold for want of proper bids and subsequently closed. The number is still capable of reduction, which will be decided on at the time of sales.

54. *Rentals.*—The auction proceeds of Bagani toddy shops amounted to Rs. 35,037-6-0 against Rs. 35,251-4-11 of the previous year. The District of Hassan showed an increase of Rs. 1,062-5-1, while Shimoga and Kadur lost Rs. 605-8-0 and Rs. 670-12-0 respectively. No reasons are assigned for these fluctuations, but it may be said on the whole that the closure of the shops must have affected the rentals.

55. *Number of trees tapped.*—Under this head also the number of trees tapped fell from 16,449 to 16,086. The decrease of 363 trees is made up of an increase of 21 trees in the Kadur District and a decrease of 312 trees in the other two districts.

For 1910-11 certain facilities for the speedy marking of Bagani trees have been created but the Deputy Commissioner of Kadur apprehends that the staff should be strengthened for a systematic patrol of the inaccessible jungles. I am inclined to agree with him and strongly urge the increase of staff in the malnad tracts.

CHAPTER V.—Country malt liquors.

(1) Beer.

56. *Number of Taverns.*—There were, during the year under report, only two country beer taverns one at Robertsonpet and the other at Bowringpet in the Kolar District. These were sold by public auction at a license fee of Rs. 57 and Rs. 55 per hogshead, respectively, against Rs. 70 and Rs 35 in the previous year. The duty at two annas and one and a half pies per gallon was also levied in addition to these hogshead fees.

57. As usual, a special license was issued to the Canteen held by the Military authorities in the Camp of Exercise in the Devanhalli and Dodballapur Taluks. The licensees of foreign and special liquor shops were also permitted to sell the Bangalore Brewery bottled beer.

58. *Consumption.*—The total quantity of beer consumed during the year was 4,953 gallons against 5,660 gallons of the previous year. The decrease is chiefly due to the less consumption in the Canteen.

(2) Akkibhoja.

59. *Number of shops.*—Tirthahalli Taluk of the Shimoga District and Koppa and Mudgere Taluks of the Kadur District are the only places in the State, where shops for the vend of Akkibhoja or rice-beer were licensed. In consequence of the numerous complaints received from different quarters about the deleterious effects of this drink, the Deputy Commissioner of the Kadur District expressed his intention to gradually reduce the number of these shops in that district. In pursuance of his intention 4 out of 12 shops were closed during the year under report and even the existing 8 were ordered to be shut during the current year merging their rentals in the Bagani and arrack shops in their vicinity. Thus the number of shops licensed in both the districts during 1909-10 was 43 against 47.

60. *Revenue.*—The rental fetched by the sale of these shops amounted to Rs. 3,938-8-0 against Rs. 3,790-4-0. The Shimoga District contributed to an increase of Rs. 164-4-0 which is attributed to the great demand there is for this drink at the place. In spite of the closure of 4 shops in the Kadur District, there was an increase of Rs. 29. This shows that the demand for this beverage is not less in that district also.

61. The Deputy Commissioner, Shimoga, urges the necessity of bringing the preparation of this drink for home consumption under supervision and control to prevent its encroachment on the consumption of other liquors, and cites 5 cases of unlicensed sale prosecuted and convicted during the year. This matter will engage my attention and suitable measures will be provided ere long after a thorough enquiry on the spot.

CHAPTER VI.—Intoxicating drugs and opium.

(1) *Ganja.*

62. *Supply of ganja.*—By courtesy of the Madras and the Central Provinces Governments a stock of 430 Bengal maunds of ganja was imported duty free to meet the demand in the State as there was only a stock of 44 maunds and 25 seers in the Provincial Ganja Stores on 1st July 1909.

63. *Cultivation of ganja by amani.*—On account of the failure of timely rains the experiment of growing ganja in the Kayamgutta Gollahalli village of the Bangalore Taluk was not as successful as it was expected to be, although all the necessary precautions were taken, but the climate and soil were not found suitable. As it was believed that ganja would grow better in the low-lying lands of Goribidnur, an attempt was made to plant a small area of about an acre near Dodkurugod of the Goribidnur Taluk and in spite of lateness of the season, the crop that was raised was very hopeful.

64. With the experience thus gained it has been decided to grow the drug extensively at Dodkurugod and round about Goribidnur and with this view a quantity of seed worth Rs. 300 was purchased from Khandwa of the Central Provinces and is being given out to the raiyats to whom licenses have been granted. As this growing of ganja by raiyats requires constant supervision, an establishment consisting of one Overseer and 4 peons is being employed. The sowing operations have already begun and the result is being keenly watched.

65. *Price of ganja.*—The price of ganja has been raised from Re. 1 to Rs. 1-4-0 per seer of 80 tolas from 1st July 1910 to meet the extra cost involved in the import of the drug.

66. *Shops.*—The number of retail shops during the year under report was 236 against 238 of the previous year Two shops in the Shimoga District were closed for want of bids. The incidence was, therefore, one shop for 124·1 square miles and for 22,995 persons against 124 square miles and 22,898 persons.

67. *Rental.*—The rentals realized from the sale of ganja shops amounted to Rs. 23,648-12-0 against Rs. 21,652-12-0, thus resulting in an increase of Rs. 1,996. The loss of Rs. 176 in the Tumkur District is made good by the gain in all the other districts, which is attributed to keen competition.

68. *Consumption.*—The quantity of ganja retailed during the year was 10,559 seers and 40 tolas against 9,086 seers and 42½ tolas in the previous year. There was an increase in all the districts except Tumkur, which shows a loss of 13 seers. The better quality of the stuff supplied and the suppression of smuggling to some extent from British frontiers have no doubt contributed to this result.

(2) *Majum.*

69. *Majum.*—This preparation of ganja is sold to licensees of ganja shops from bonded depots after a levy of a duty of Rs. 1-1-0 at price Re. 0-6-6 for a seer of 80 tolas and has a great demand in the districts of Bangalore, Kolar and Shimoga.

70. *Consumption.*—The quantity of majum sold during the year was 486 seers and 40 tolas or 43 seers more than in the previous year. The increase is distributed over all the three districts where it was consumed. The District of Kadur where 5 seers had been sold in the year previous did not take any in the year under report.

(3) *Cocaine and Novocaine.*

71. In the Bangalore City 5 licenses for the possession of cocaine were issued to chemists and druggists and one to the Chief Medical Officer, Kolar Gold Fields.

72. Permit for import of Cocaine for use in the several hospitals in the State was granted to the Inspector of Cattle Diseases and to the Senior Surgeon.

(4) *Opium.*

73. *Supply.*—The opium required for consumption continued to be obtained from the Madras Store-house through the Residency.

74. *Price.*—The price of the opium supplied continued to be Rs. 11-9-0 per seer of 80 tolas during 1909-10.

75. *Number of shops.*—There were during the year under report 110 shops for the sale of opium against 113 of the previous year, one shop in each of the districts of Mysore, Shimoga and Chitaldrug having been closed. The incidence was one shop for 267·5 square miles and for 49,544 persons.

76. *Rental.*—There was a fall in the rentals of opium shops from Rs. 9,378 in 1908-09 to Rs. 8,578-10-0 in the year under review. The decrease of Rs. 799-6-0 is made up of a small increase in each of the districts of Hassan and Kadur amounting to Rs. 99-8-0 and a decrease of Rs. 896-4-0 in all the other districts. The prohibition of vending opium in jatras and fairs may have contributed to this decrease.

77. *Consumption.*—During the year 1909-10 a quantity of 1,226 seers and $30\frac{3}{8}$ tolas was consumed against 1,217 seers and $9\frac{1}{2}$ tolas in the previous year. The small increase of 9 seers and $20\frac{7}{8}$ tolas calls for no remarks.

78. *License to medical Practitioners.*—As in the year previous, only 5 licenses were granted to medical practitioners in the year under report.

79. *Gain.*—The gain on sale proceeds of opium amounted to Rs. 31,571-13-0 against Rs. 34,635 of the previous year.

CHAPTER VII.—Measures for the protection of the revenue.

80. *General results.*—During the year 1909-10, 1,967 cases affecting 2,431 persons were reported against 1,858 cases affecting 2,728 persons in the previous year, and including those pending from the previous year, 2,309 cases affecting 2,990 persons came before the officers of the Department as against 2,123 and 3,073 respectively in 1908-09 Exclusive of the cases of date leaf-cutting, which are not Excise offences, the Department had to deal with 2,246 cases during the year. Appendix M gives a classified statement of the offences reported and it will be observed therefrom that under the several heads there were 496 cases under heinous offences 1,408 under breaches of license conditions and 63 under date leaf-cutting during the year under review against 328,1,272 and 258, respectively, in the previous year. There has been a perceptible rise in the cases under the first two heads, while those under the last have gone down considerably. Want of clear instructions in dealing with date leaf-cutting cases may have contributed to this heavy fall. The constant inspection of groves by Departmental officers has also acted as a check on the commission of the offence. The subject is not free from some complications and Government orders are awaited on a reference suggesting the issue of certain instructions to facilitate dealing with such cases. Of the cases under Excise Regulation and Rules affecting liquors, 8 related to smuggling, 19 to illicit distillation, 185 to illicit tree-tapping and 188 to illicit transport, unlicensed sales, possession without license, dilution, and use of false measures. Under offences relating to intoxicating drugs the year under report is conspicuous in the detection of 71 cases of illicit cultivation of the hemp plant and only 12 under smuggling. Under opium 3 cases were reported one relating to unauthorised sale, one to the possession and sale of Maddath and the last to the illicit cultivation of one poppy plant. The fall in the number of cases under ganja smuggling is noticeable in the Kolar and Shimoga Districts which reported no clases in the year under report, against 11 of the past year, while Mysore shows a singe case against 8 in the previous year. Nevertheless there has been a considerable rise under detection of illicit cultivation of the hemp plant, which has 71 against 26 of the past year.

81. *Bangalore District.*—Though there is a considerable fall in the number of liquor-smuggling cases, those relating to the smuggling of contraband ganja have increased from 4 to 6. The offences of illicit transport, unlicensed sales and dilution of liquor have risen from 10 to 53 but those relating to breaches of license conditions have gone down from 274 to 273. No cases of opium smuggling were reported during the year, but a case of unauthorised cultivation of a poppy plant, reported from the Devanhalli Taluk, ended in conviction. The Deputy Commissioner

urges the necessity for a detective staff at the British frontier in the Hosur Taluk to check the smuggling of toddy and ganja therefrom.

82. *Kolar District.*—The two cases of illicit distillation detected by the patrol party of Bowringpet at the close of the previous year are reported to have ended in conviction. Two cases of illicit transport of British toddy were also detected by them during the year. Judging from the result, the Deputy Commissioner is of opinion that the employment of this party has been a wholesome check on the culprits and that their services will also be utilised to patrol the frontier in the Malur Taluk.

83. *Tumkur District.*—There has been a decided improvement in the detection work of this district during the year which has reported 36 cases under heinous offences and 233 under breaches of license conditions against 12 and 114 respectively. The only case deserving of mention in the district is the smuggling of British toddy into the State reported from the Pavagada Range which ended in the conviction of both the accused concerned. But I am afraid that the large fall in arrack consumption points to the fact that there is a lot of undetected illicit distillation.

84. *Mysore District.*—In this district there has been a fall in the number of cases under breaches of license conditions from 171 to 103, while those under heinous offences have risen from 36 to 53 which is very satisfactory. The only noteworthy case is the one reported from the Mysore City Range relating to smuggling of British ganja to the Mysore City which was prosecuted to conviction. The Deputy Commissioner is of opinion that it is high time to organize a specially trained detective staff to prevent and detect the growing smuggling of British ganja.

85. *Hassan District.*—The decrease of 8 cases under breaches of license conditions is the only feature in this district. The number of heinous offences has risen from 42 to 50 in spite of the detection of 21 cases under illicit cultivation of ganja during the year. The Deputy Commissioner again urges the necessity of strengthening the subordinate staff and of the organization of a patrol party to put down illicit tapping in the malnad tracts.

86. *Kadur District.*—Although the number of cases both under heinous offences and breaches of license conditions have risen from 67 and 150 to 95 and 196, respectively, the preventive work of the Department cannot be said to be satisfactory, inasmuch as only one case under illicit distillation has been reported against 10 of the past year. No doubt there has been some improvement in the detection of illicit tapping cases being 74 against 55, but the non-detection of illicit distillation cases which are rife in the district is anything but creditable to the officers concerned, especially as consumption has decreased by 630 gallons. There were frequent changes in the District Excise Officers of the district and this may partly be the reason for the above.

87. *Shimoga District.*—This district also shows a fall in the number of illicit distillation cases being 16 against 35. Shimoga and Shikarpur Taluks abound in Lambanis who are the habitual distillers of the place. Comparing the consumption the fall of 1,137 gallons in the former and of 268 in the latter confirms that sufficient attention has not been devoted to this important work. The number of cases detected under other heads is satisfactory being 195 against 159 under breaches of license conditions and 112 against 78 under heinous offences.

88. *Chitaldrug District.*—This district which showed 12 illicit distillation cases in the previous year has not shown any in the year under report. The Harihar frontier of the Bombay Presidency and the villages bordering on the Honnali Taluk of the Shimoga District are known to be a good field for the detection of such cases. The Deputy Commissioner brings to notice the necessity of employing a special detective staff as the present staff with their multifarious duties are not able to devote more than spasmodic attention to this important preventive work. The detection in other respects is satisfactory being 148 and 33 against 69 and 27, respectively, both under breaches of license conditions and heinous offences.

89. *Date-leaf cutting.*—The number of cases of unauthorized cutting of date leaves fell from 258 to 63. The decrease is noticeable in all the districts, except in

Shimoga, which reported 4 cases only in the year under report. The Deputy Commissioner of the Hassan District attributes the heavy fall in his district to the copious rainfall in the year under report and the consequent immunity to the date leaf for purposes of fodder. The fall in the other districts has not been explained, but may be attributed to the same reason.

90. *Departmental disposal.*—Appendix M-1 shows the disposal of cases by the Officers of the Department. The percentage of cases disposed of by these officers fell from 86·3 in 1908-09 to 85·9 in the year under report. The slight decrease does not call for remarks. Bangalore had the heaviest file while Hassan had the lowest and the percentage of disposal in these districts was 85·0 and 85·6, respectively.

91. *Disposal by the Magistracy.*—Appendix M-1. Including the pending cases the Magistrates had to dispose of 476 cases. Of these 425 cases have been disposed of, leaving a balance of 53 cases at the end of the year under report. Out of 805 persons concerned 577 were convicted, 115 acquitted and 19 disposed of otherwise and 94 are awaiting trial. The percentage of conviction was, therefore, 71·6.

92. *Opium cases.*—No cases of opium smuggling were reported during the year.

93. *Rewards.*—During the year under report a sum of Rs. 258 was sanctioned as rewards and Rs. 225-12-4 were spent on Secret Service. The total expenditure came to Rs. 483-12-4.

94. *Assault on officers.*—A case of assault on the person of Assistant Inspector, G. Hemsingh, of the Tirthahalli Taluk, whilst on duty, was reported from the Shimoga District. But the three accused persons concerned therein were acquitted for want of evidence. Besides, two cases were reported from the Mysore District which also ended in the acquittal of the accused for the same reason.

95. *Detective staff.*—All the Deputy Commissioners strongly urge the necessity for the employment of a special detective staff for the efficient safeguard of the State Excise Revenue. The Bombay and the Madras frontier tracts need systematic patrol and this additional work cannot be thrown on the general staff who are already burdened with multifarious duties. A proposal to start a training school was made to Government but no funds were found available. I cannot impress upon Government the necessity of this and will again submit my proposals shortly.

96. *Inspection.*—Appendix O shows the details of inspection and itineration made by the District Excise Officers. The number of days, the District Excise Officer of Tumkur was out on tour is noted as 67 and this cannot be regarded as satisfactory. The itineration of the other officers calls for no remarks. The inspection of shops and depots of all the officers was good.

97. During the year under report, I was on leave from 24th March to 12th May 1910. For the rest of the period, I toured in all the districts and inspected the Registers of nine Range Offices, 14 Taluk offices, 1 Sub-Range Office and 12 bonded depots. The notes of inspection were duly communicated to the officers concerned. Besides I inspected the Distillery 24 times and the ganja plantations at Gollahalli and Dodkurugodu and the date plantations in the Kolar and Bangalore Districts frequently.

CHAPTER VIII.—Financial results.

98. *Demand, collection and balance of Excise Revenue.*—The gross demand for the year amounted to Rs. 47,20,040-4-9 against Rs. 48,53,631-4-0 and the gross collections to Rs. 45,15,444-9-8 against Rs. 46,24,442-9-1 in the previous year, the percentage of collection being 95·6 against 95·2. Appendices F and F-I give the figures for each district and Appendix K gives the collection under each head of revenue. It will be seen from the marginally noted figures that the gross demand for the year ranks next to that of 1908-09, since the introduction of the tree-tax system.

	Rs.
1909-10 ...	... 47,20,040
1908-09 ...	... 48,53,631
1907-08 ...	... 46,79,393
1906-07 ...	... 45,13,660
1905-06 ...	... 43,05,830
1904-05 ...	... 42,83,044
1903-04 ...	... 41,24,379
1902-03 ...	... 38,74,118
1901-02 ...	... 37,66,453
1900-01 ...	... 37,36,837

99. *Arrears.*—The total arrears demand including tree-rent at the beginning of the year was Rs. 2,20,761, of which Rs. 29,671-12-7 were collected and Rs. 20,030-1-2 were remitted, leaving a balance of Rs. 1,71,059-9-1 at the close of the

year. The percentage of this collection was highest in the Kolar and Hassan Districts, where it amounted to 32·1, and lowest in the Shimoga District, being 10·2.

100. *Current demand.*—The total current demand for the year amounted to Rs. 44,99,278-13-11 against Rs. 46,06,703-1-6, showing a decrease of Rs. 1,07,424-3-7 or 2·3 per cent chiefly under arrack duty and tree-tax. The demand under the several heads (omitting fractions of a rupee) is given below :—

Major heads	Minor heads	1908-09	1909-10
		Rs.	Rs.
Arrack	Still-head duty	19,40,447	18,52,860
	Shop rental	3,54,140	3,64,133
Country beer	Duty	701	670
	License fees	1,718	1,939
Akkibhoja	Do	3,785	3,983
Foreign liquor	Do	12,851	14,352
Toddy ... { Date	Shop rental	13,80,460	13,83,610
	Tree-tax	6,34,018	5,91,704
Toddy ... { Bagani ...	Shop rental	35,251	35,037
	Tree-tax	33,336	32,631
Tree-rent...	Tree-rent	77,836	77,313
Ganja and majum duty ...	Duty and price	55,098	63,998
	License fees	21,653	23,649
Opium	Do	9,378	8,579
	Gain on sale proceeds ...	34,635	31,572
Miscellaneous	.....	8,204	9,451
Proportionate share of the cost of the Central Distillery establishment charges recovered from the Civil and Military Station, Bangalore	.....	3,191	3,796
	Total ...	46,06,702	44,99,277

101. *Causes for variation on several heads.*—The decrease under arrack duty and tree-tax is due to the fall in the consumption of arrack and in the number of trees tapped. The increase in the rentals of arrack and toddy shops is the result of keen competition, while that under ganja is due to larger consumption consequent on the better quality of the drug supplied. The increase under foreign liquors is due to the sale of refreshment rooms in the Bowringpet Taluk instead of licensing them out on a fixed fee. The variations under other items being small, call for no remarks.

102. *Proportion of fixed to variable portion of the revenue under country spirits and toddy.*—83·5 per cent of the revenue from country spirits was derived from Excise duty and 16·5 per cent from rentals, against 85 per cent under the former and 15 per cent under the latter in 1908-09, while the proportion of toddy rentals and tree-tax to the total toddy revenue was 69·5 and 30·5 against 68·0 and 32·0, respectively, in the previous year. 40·7 per cent of the total Excise revenue for the year was derived from the sale of the various privileges, while it was 39 per cent in the last year.

103. *Collections.*—The total collections under current demand amounted to Rs. 44,78,785-15-0 against Rs. 45,87,849-2-3 in the previous year, with a balance of Rs. 16,697-1-6, excluding Rs. 3,795-13-5, pending adjustment by the Residency. This gives a percentage of 99·7 against 99·5. Thus there has been some improvement in this direction in the year under report. The districtwar percentage of collection is noted below :—

My ore	99·96
Shimoga	99·88
Bangalore	99 77
Hassan	99·68
Kolar	99·62
Chitaldrug	99·45
Tumkur	98·99
Kadur	98·82

The collection work was on the whole very satisfactory.

104. Four taluks in the Bangalore District, five in Kolar, three in Tumkur, twelve in Mysore, one in Hassan, four in Shimoga and four in Chitaldrug, show a

clean balance sheet in respect of the current demand, while two in Bangalore, two in Kolar, two in Tumkur, one in Chitaldrug and one in Shimoga, show a similar clean balance in respect of gross demand. Classifying the taluks in the order of those showing arrears of upwards of Rs. 12,000, Rs. 5,000, Rs. 1,000 and less than Rs. 1,000, it is found that six taluks come under the first head, five under the second, while 25 and 25 fall under the third and the fourth heads, respectively, as detailed in Appendix F-2. It is hoped that the several Deputy Commissioners will give their early attention to reduce these heavy arrears.

105. *Net receipts.*—Excluding out of the gross collections, the local cess on certain items to the extent of Rs. 2,01,048-14-4 credited to local funds and a further sum of Rs. 8,165-2-0 credited to other departments on account of tree-rent on toddy trees standing in the lands belonging to the respective departments, the net revenue credited to excise amounted to Rs. 43,06,250-9-4 against Rs. 43,72,807 in 1908-09.

106. *Expenditure.*—The total expenditure under all heads amounted to Rs. 3,20,754-0-5 against Rs. 3,39,847 or Rs. 19,092-15-7 less than in the previous year. The decrease was chiefly under remuneration to carrying contractors and allowances. The total cost of the establishment including officers of the Excise Department, calculated on the total gross receipts was 5·7 against 5·6 per cent, while the percentage of total expenditure under all charges amounted to 7·0 against 7·4 per cent.

107. *General incidence of taxation.*—The incidence per head of population on the total Excise gross receipts was Re. 0-13-2·6 against Re. 0-13-5·5 in the previous year.

108. All the Deputy Commissioners have again urged the necessity of strengthening their office establishment and if the proposal now before Government is sanctioned, the efficiency that would be created thereby is sure to repay the small outlay.

109. Comparing the percentage of probable cost of collecting the gross revenue of this department with that of others as noted in the current year's budget, I beg to lay stress on the figurer noted in the margin and to state that in the interest of the general efficiency the executive service of the department requires a thorough revision along with the clerical establishment of the Excise Commissioner's Office.

Land Revenue	19·41%
Forest including sandalwood	40·432%
Forest excluding	77·746%
Excise	8·395%
Stamps	4·365%
Registration	56·6664

110. *Departmental Training.*—One of the most important events of the year was the starting of a class to train up the subordinates in the practical work of the department. Officers were called in by turns and the period was limited for each session to about three months. The subjects taught were classified under the following three general headings :—

(1) Distillery Course.

(2) Excise Regulation, Opium and Methylated Spirits Acts and Rules and Departmental Circulars.

(3) Criminal Law comprising the Indian Evidence Act in full, the general principles of the Indian Penal Code including those portions of the Procedure as relate to the compelling the attendance of witnesses, arrests, search and seizure and investigation and conduct of summons cases.

(4) Practical lessons at the Distillery and at the Bonded Depot.

Officers who had already passed the Criminal Test of the Mysore Local Service Examination were exempted from the Criminal Law Course.

The following table gives the results achieved in the school in each session :—

Session	Number in class	Number passed including failures of the previous session		
		Alcoholometry	Excise Laws	Criminal Law
1st Session from 2nd August to 1st November 1909 ...	27	21	17	17
2nd Session from 1st November 1909 to 31st January 1910 ...	33	27	36	26
3rd Session from 7th February to 4th April 1910 ...	27	20	26	27

APPENDIX A

Statement showing the details of the adjustment of the money advanced by Government for payment to the manufacturers of arrack for spirits sent to Bonded Depôts during 1909-10.

Period	Amount to be adjusted			Deduct adjustments made			
	Opening balance of arrears unadjusted	Paid to manufacturers during the year	Total	Received from shopkeepers drawing arrack	Struck off the account on account of bung wastage incurred in Bonded Depôts	Total	Balance remaining to be adjusted
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
On account of the current as well as the past contract ...	*12,779 1 2	2,75,970 9 9	2,88,749 10 11	2,71,710 9 0	.....	2,71,710 9 0	17,039 1 11

* Revised figures given by the Comptroller.

There can be no doubt that the training of these officers has had an excellent effect upon the department generally.

Mr. B. Shamanna, Assistant Commissioner, was in charge of the class and the instructions were given by Inspector N. Krishnaiengar, B.A.

111. *Notice of officers.*—Of the officers who have served for some time in the Department, I have received the greatest help in every respect and they have worked with zeal and energy throughout and I would specially bring the names of Messrs. Shamanna, Sitharamiah, Ranga Rao and Abdulla Sheriff to the notice of Government. It is hoped that Mr. Narainswamy Mudaliar will be allowed to remain in the Department as he shows great interest and being formerly in the Department is cognizant of the working. This being a technical Department, requires a certain amount of knowledge.

The office establishment has worked most satisfactorily throughout the year and the Head Accountant Tirunarnaiengar has done exceptionally good work and shows special aptitude for Excise matters. He was relieved in May by N. Krishnaiengar who works most diligently and shows great promise.

I have the honor to be,

Sir,

Your most obedient servant,

H. H. SPARKES,

Excise Commissioner.

APPENDIX B.

Statement showing the quantity of arrack and other country spirits transported by arrack distributing contractors from the Government Central Distillery to Bonded Depôts and the remuneration paid to them for 1909-10.

Districts	Spirits transported		Remuneration				Deduct duty and price of bung wastage incurred in the depôts		Balance payable to contractors		Remarks
